Dear Commission:

I wholeheartedly support registration of Naturopathic Doctors in Pennsylvania. Registration of Naturopathic Doctors fortifies distinction of their education and training from an accredited naturopathic medical college by the Council on Naturopathic Medical Education (CNME). Registration further assures Pennsylvania residents their Naturopathic Doctor with the N.D. title has the competencies to practice in PA.

*****Share more about your personal story below***** I have benefited greatly from the wisdom of Naturopathic Doctors. I have more understanding of how to support my body using minerals and supplements in order to maintain the highest level of health and optimal living. I have always felt that Naturopathic medicine has allowed me too continue to believe in health and wellness and not subscribe to sickness and the need for traditional medicine. I incorporate all parts of my life including physical, emotional, and spiritual into my daily health regimen. I am so grateful to Naturopathic Doctors for the time, energy, and wisdom they put into their work and comprehensive and individualized care. This field is so necessary in the current climate and needs to be celebrated for reminding patients of the body's wisdom and ability to heal naturally given the correct diagnosis.

Sincerely,
Robyn L. Zikmund
