Registration of Naturopathic Doctors

IRRC #: 3324

Agency #: 16A

ID#: 4953

I credit my Naturopathic Doctor (with a specialty in Oncology) for getting me through the horrible short and long term side effects of chemo and radiation treatment with the addition of Nutraceutical grade supplementation, something that was missing from my conventional medical treatment/protocol. It would also be a great benefit if these highly trained N.D.s, were legally able to accept health insurance to help offset the high cost of healthcare and were able to request labs and write scripts for their patients.

I hope that you will please give strong consideration to adding/registering these vital, highly knowledgeable and professional Naturopathic (medical) Doctors/Providers to the state of Pennsylvania for the sake of all of us who depend on them for integrative support for our health and wellness!

Thank you for your time.
