Dear Mr. Nyce,

We are writing you at the suggestion of Rep. Matt Wright of our district regarding our concerns of Title 7. Agriculture, Part III Bureau of Food Safety & Laboratory Services Chapter 76. Food Employee Certification, Document No. 2-107, "Food Employee Certification".

With our headquarters in Bucks County, we are the nation's largest food safety certification provider, training and testing to over 20,000 food service managers in 18 states. Our staff includes Physicians, Dietitians, Sanitarians and Educators.

Please advise us as to the procedure to make comments before the IRRC board on the above regulations. We appreciate your assistance in this matter.

Sincerely,

David Nash, President
