NOTICE OF PROPOSED RULEMAKING

INSURANCE DEPARTMENT

31 Pa. Code, Chapter 89 Sections 89.777, 89.890 and Appendix E

Medicare Supplement Insurance Minimum Standards

PREAMBLE

By this notice the Insurance Department (the Department) hereby proposes to amend 31 Pa. Code, Chapter 89, Subchapter K, Medicare Supplement Insurance Minimum Standards, Sections 89.777, 89.790 and Appendix E, to read as set forth in Annex A. The Department is publishing this amendment of the regulation as a proposed rulemaking. The Department proposes the amendments to 31 Pa. Code under the authority of sections 206, 506, 1501 and 1502 of the Administrative Code of 1929 (71 P.S. §§ 66, 186, 411, and 412).

Purpose

Chapter 89, Subchapter K, was initially promulgated to establish certain minimum standards for Medicare Supplement Insurance. The Insurance Department seeks to modify Subchapter K to allow for the sale of "Medicare Select" products (previously a federal pilot program) which is intended to expand the health care choices of Medicare eligible insureds. Generally, Medicare Select will allow consumers to purchase Medicare Select products for lower premiums than standard Medicare supplement policies. The major difference between standard Medicare supplement policies and Medicare Select policies is that each Medicare Select issuer will have a network of specific hospitals, and possibly specific doctors, that must be utilized in order to receive full benefits, except in the case of an emergency. It is similar in concept to preferred provider organizations (PPOs) for accident and health insurance. The addition of Medicare Select products in Pennsylvania will allow consumers an additional choice in selecting a Medicare supplement product and will bring a nationally marketed product to the Commonwealth. Lastly, the Department has received numerous inquiries and letters of support for Medicare Select from consumers, the insurance industry and providers alike. The Department has also clarified and revised language to improve the readability and understandability of the regulations.

Explanation of Regulatory Requirements

Section 89.777a (relating to Medicare Select policies and certificates) is a new section being added to implement the policy requirements for Medicare Select. The Department is adopting the National Association of Insurance Commissioners' model regulation language. The addition of this product in Pennsylvania will allow greater selection of supplemental products for Medicare eligibles.

Section 89.790(b)(6) (relating to guaranteed issue for eligible persons) has been modified to ensure that this specific guaranteed issue protection applies to all Medicare supplement eligible individuals. This is consistent with the current regulatory requirement that Medicare supplement policies be offered to all eligible individuals when they qualify for coverage.

Appendix E (relating to Medicare supplement refund calculations) is being revised to incorporate minor format changes. These format changes are intended to eliminate confusion and improve understanding.

Fiscal Impact

The Insurance Department currently has the capacity to review the new Medicare Select filings in the course of normal business and should experience minimal or no cost increases in reviewing these new products.

The insurance industry will incur minimal additional costs in filing for the approval of the new forms, if they chose to offer Medicare Select products. Most issuers should be able to submit forms either identical, or very similar to, variations approved in other states because this regulation is adopting the NAIC model language.

Consumers could experience additional savings based on greater product availability.

Paperwork

Adoption of these regulations will require additional paperwork in the product development area only if issuers choose to market Medicare Select products. Paperwork requirements should not be burdensome for the Department because the new Medicare Select products can be reviewed during the normal course of business.

Persons Regulated

This regulation applies to all insurance companies who issue Medicare Supplement products in the Commonwealth.

Contact Person

Questions or comments regarding the proposed rulemaking may be addressed in writing to Peter J. Salvatore, Regulatory Coordinator, 1326 Strawberry Square, Harrisburg, Pennsylvania 17120 within 30 days following the publication of this notice in the Pennsylvania Bulletin.

Regulatory Review

Under section 5(a) of the Regulatory, Review Act, (71 P.S. §745.5(a)), the agency submitted a copy of this regulation on ____/27/99_______ to the Independent Regulatory Review Commission and to the Chairmen of the House Insurance Committee and the Senate Banking and Insurance Committee. In addition to the submitted regulation, the agency has provided the Commission and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the agency in compliance with Executive

Order 1996-1, "Regulatory Review and Promulgation." A copy of that material is available to the public upon request.

If the Commission has any objections to any portion of the proposed amendments, it will notify the agency within 30 days after the close of the public comment period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for the agency, the Governor and the General Assembly to review these objections before final publication of the regulations.

Re: Insurance Department

Proposed Regulation No. 11-193, Medicare Supplement

Insurance Minimum

Standards

Dear Mr. Nyce:

Pursuant to Section 5(a) of the Regulatory Review Act, enclosed for your information and review is proposed regulation 31 Pa. Code, Chapter 89, Medicare Supplement Insurance Minimum Standards.

The Insurance Department seeks to modify Subchapter K to allow for the sale of "Medicare Select" products (previously a federal pilot program) which is intended to expand the health care choices of Medicare eligible insureds. Generally, Medicare Select will allow consumers to purchase Medicare Select products for lower premiums than standard Medicare supplement policies. The addition of Medicare Select products in Pennsylvania will allow consumers an additional choice in selecting a Medicare supplement product and will bring a nationally marketed product to the Commonwealth. Lastly, the Department has received numerous inquiries and letters of support for Medicare Select from consumers, the insurance industry and providers alike. The Department has also clarified and revised language to improve the readability and understandability of the regulations.

If you have any questions regarding this matter, please contact me at (717) 787-4429.

Sincerely yours,

Peter J. Salvatore

Regulatory Coordinator
