The Insurance Department is modifying Subchapter K to allow for the sale of "Medicare Select" products (previously a federal pilot program) which is intended to expand the health care choices of Medicare eligible insureds. Generally, Medicare Select will allow consumers to purchase Medicare Select products for lower premiums than standard Medicare supplement policies. The major difference between standard Medicare supplement policies and Medicare Select policies is that each Medicare Select issuer will have a network of specific hospitals, and possibly specific doctors, that must be utilized in order to receive full benefits, except in the case of an emergency. The addition of Medicare Select products in Pennsylvania will allow consumers an additional choice in selecting a Medicare supplement product and will bring a nationally marketed product to the Commonwealth.

NOTICE OF FINAL RULEMAKING

INSURANCE DEPARTMENT

31 Pa. Code, Chapter 89 Sections 89.777, 89.890 and Appendix E

Medicare Supplement Insurance Minimum Standards

PREAMBLE

By this notice the Insurance Department (the Department) hereby proposes to amend 31 Pa. Code, Chapter 89, Subchapter K, Medicare Supplement Insurance Minimum Standards, §§ 89.777, 89.790 and Appendix E, to read as set forth in Annex A. The Department proposes the amendments to 31 Pa. Code under the authority of sections 206, 506, 1501 and 1502 of the Administrative Code of 1929 (71 P.S. §§ 66, 186, 411, and 412).

Purpose

Chapter 89, Subchapter K, was initially promulgated to establish certain minimum standards for Medicare Supplement Insurance. The Insurance Department seeks to modify Subchapter K to allow for the sale of "Medicare Select" products (previously a federal pilot program) which is intended to expand the health care choices of Medicare eligible insureds. Generally, Medicare Select will allow consumers to purchase Medicare Select products for lower premiums than standard Medicare supplement policies. The major difference between standard Medicare supplement policies and Medicare Select policies is that each Medicare Select issuer will have a network of specific hospitals, and possibly specific doctors, that must be utilized in order to receive full benefits, except in the case of an emergency. It is similar in concept to preferred provider organizations (PPOs) for accident and health insurance. However, Medicare Select policies are not PPO policies and are not subject to Section 630 of the Insurance Company Law (40 P.S. § 764a). In addition, because Medicare Select policies do not meet the definition of "managed care plans" in Act 68 of 1998 (40 P.S. §§ 991.2101 - 991.2193), the provisions of that act, including those relating to complaints and grievances, do not apply to Medicare Select policies. Pennsylvania is one of the few remaining states that has not authorized the sale of the Medicare Select product. The Department believes this puts consumers and issuers at a competitive disadvantage in comparison with neighboring The Department has received numerous inquiries and letters of support for Medicare Select from consumers, the insurance industry and providers alike. The Department has also clarified and revised language to improve the readability and understandability of the regulations.

Comments and Response

Notice of proposed rulemaking was published at 29 Pa.B. 650 (February 6, 1999) as a proposed rulemaking with a 30-day public comment period. No comments were received from the public or the insurance industry.

On April 8, 1999, the Independent Regulatory Review Commission (IRRC) responded with comments.

IRRC noted that the regulation was not clear regarding what constitutes a complaint, how complaints are to be distinguished from grievances, and the procedures

an insurer must follow when a complaint is received. IRRC also commented that the definition of "complaint" in section 89.777a(c)(1) does not provide a clear distinction between a complaint and a grievance.

Complaints are more general and less formal than grievances. The Department believes that both complaints and grievances need to be included in the regulation. Based on its review of this comment, the Department revised the definition to clarify that a complaint can be expressed "orally or in writing" and can be filed by an individual "insured under a Medicare Select policy or certificate."

IRRC commented that paragraph (f)(3) requires a Medicare Select issuer to provide a description of the grievance procedure. They questioned why there was not a similar requirement for complaints.

The Department agrees and a new paragraph (f)(4) has been added requiring that Medicare Select issuers provide a description of the complaint procedure to be utilized.

IRRC further commented that the scope of paragraph (f)(7), which required a proposed plan to contain "other information requested by the Commissioner", was too broad and should be narrowed to information pertinent to the plan of operation.

The Department agrees and paragraph (f)(7) has been renumbered as (f)(8) and revised to include that the other information requested by the Commissioner shall be "pertinent to the plan of operation".

IRRC commented that the requirements for hearing complaints and resolving written grievances in paragraphs (l)(1) - (6) should apply to both complaints and grievances.

The Department agrees and paragraphs (l)(1) - (5) have been revised to include these requirements for both complaints and grievances. Paragraph (l)(6) has not been revised to include complaints. Because complaints are a less formal process than grievances and can be expressed orally, the Department believes it would be an unnecessary regulatory burden to require issuers to track and formally report on complaints to the Department.

IRRC further commented regarding subsection (l) that the Department should require issuers to explain how an individual may initiate a complaint or grievance.

The Department believes that this issue is addressed by the proposed language in paragraph (1)(2).

IRRC further commented on the timeframes for consideration of and notification to concerned parties in paragraphs (1)(3) - (5). They were concerned that these subsections do not provide clear guidance for when the actions are expected to occur.

Medicare Select is a Medicare supplement product that pays after Medicare pays based on Medicare's benefit determination and the use of participating Medicare Select providers. Timeframes for the consideration of complaints and grievances have been added. The timeframes for action by the issuer do not start until after a benefit determination has been made by Medicare. The Department has clarified this in paragraph (1)(3).

Persons Regulated

This regulation applies to all insurance companies who issue Medicare Supplement products in the Commonwealth and who choose to offer Medicare Select policies.

Fiscal Impact

The Insurance Department currently has the capacity to review the new Medicare Select filings in the course of normal business and should experience minimal or no cost increases in reviewing these new products.

The insurance industry will incur minimal additional costs in filing for the approval of the new forms, if they chose to offer Medicare Select products. Most issuers should be able to submit forms either identical, or very similar to, variations approved in other states because this regulation is adopting the NAIC model language.

Consumers could experience additional savings based on greater product availability.

Paperwork

Adoption of these regulations will require additional paperwork in the product development area only if issuers chose to market Medicare Select products. Paperwork requirements should not be burdensome for the Department because the new Medicare Select products can be reviewed during the normal course of business.

Effectiveness/Sunshine Date

The proposed regulation will become effective upon final adoption and publication in the *Pennsylvania Bulletin* as final rulemaking. No sunset date has been assigned.

Regulatory Review

Under Section 5(a) of the Regulatory Review Act (71 P.S. §745.5(a)) the agency submitted a copy of this regulation on January 27, 1999 to the Independent Regulatory Review Commission and to the Chairpersons of the Senate Committee on Banking and Insurance and the House Insurance Committee. In addition to the submitted regulation, the agency has provided the Commission and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the agency in compliance with Executive Order 1996-1, "Regulatory Review and Promulgation." In compliance with section 5(c) of the Regulatory Review Act (71 P.S. §745.5(c)), the Department also provided IRRC and the Committees with copies of the comments received. A copy of that material is available to the public upon request.

Re: Insurance Department Final

Form Regulation No. 11-193,

Medicare Supplement

Insurance Minimum Standards

Dear Mr. Nyce:

Pursuant to Section 5a(c) of the Regulatory Review Act, enclosed for your review and approval is final form regulation 31 Pa. Code, Chapter 89, Medicare Supplement Insurance Minimum Standards.

The adoption of this rulemaking will permit insurance companies to market and sell Medicare Select policies in the Commonwealth. Pennsylvania is one of the few remaining states that has not authorized the sale of the Medicare Select product. The Department believes this puts consumers and issuers at a competitive disadvantage in comparison with neighboring states. The Department has received numerous inquiries and letters of support for Medicare Select from consumers, the insurance industry and providers alike. The Department has also clarified and revised language to improve the readability and understandability of the regulations.

If you have any questions regarding this matter, please contact me at (717) 787-4429.

Sincerely yours,

Peter J. Salvatore

Regulatory Coordinator
