Subject: regulation 54-56

Hello Christopher, and thank you for the opportunity to comment!

The elimination of registration and agent photos and ID's will have a positive impact on Pennsylvania's limited wineries. Many of the wineries in PA are small- establishing simple, inexpensive agent relationships will be to their advantage. Increasing restaurant sales are important to the future of our wine industry and accepting this regulation will help.

Although the hotel package plan is not expected to directly effect PA Wineries, we respect and support the goals of the PA Travel Council. If it could be incorporated in this ruling to say that "alcoholic beverages should not be SERVED to intoxicated customer" this would improve on the language cited that prohibits the SALE to intoxicated customers.
