John R. McGinley, Jr., Chairman
Independent Regulatory Review Commission
14th Floor, Harristown 2
333 Market Street
Harrisburg, PA 17101

Dear Chairman McGinley:

This is to advise you that the House Professional Licensure Committee was unable to convene a quorum in time to take formal action on Regulation 16A-602 and Regulation 16A-424. Committee members were forwarded a copy of the regulations and asked that they contact the Chairman with any comments or suggestions.

The Committee agreed to take no formal action on Regulation 16A-602 until final form regulations are promulgated. However, the Committee submits the following comments:

- (1) The proposed draft for the renumbering of the subsections of Sec. 19.22 would appear to result in having two (1)'s for the first subsection.
- (2) The Committee questions why a subsection (a) is necessary for proposed Sec. 19.23 when there are no other proposed subsections.
- (3) The Committee recommends that sections that are to be wholly deleted be marked as "Reserved."
- (4) The Board intends to delete subsections 1 through 8 and 18 through 23 of Sec. 19.22 in that they are matters already addressed in the Act. The Committee recommends that the phrase "in addition to those acts enumerated in the Board of Vehicles Act" be included in Sec. 19.22, in order to put licensees on notice that there are prohibited acts enumerated in the Act in addition to those set forth in the regulation.

In addition, the Committee agreed to take no formal action on Regulation 16A-424 until final form regulations are promulgated. However, the Committee submits the following comments:

- (1) The Committee recommends that the title of Sec. 3.86, "Maintenance and sterilization," be changed to "Maintenance and sanitation" to be consistent with the proposed title of Sec. 3.55 and to more accurately reflect the content of that section.
- (2) On page 3 of the Preamble, reference is made to Sec. 7.73, when the appropriate section is actually Sec. 3.73.

- (3) Throughout the Barber License Law, reference is made to the licensure categories of "manager-barber" and "barber-teacher." Sec. 3.12 of the proposed regulations, in part, refers to "teacher" rather than "barber-teacher." Sections 3.22, 3.41 and 3.71 use the terminology "barber-manager" rather than the statutory language of "manager-barber." The Committee recommends that the regulatory language be consistent with the statutory language.
- (4) Sec. 3.54(5) would be amended to require a sanitary headrest for "every two chairs." Sec. 3.54(18) would be amended to change the equipment requirement of at least six combs for each chair in operation to an unspecified number of combs. The Committee requests an explanation of the rationale for these changes and questions whether they would result in any reduction in sanitary standards.
- (5) Sec. 3.55(c)(2), pertaining to the requirement of disinfecting equipment with an EPA registered disinfectant, uses virtually the same language as provided in Sec. 3.1 for the definition of "disinfect." The Committee recommends that the definitions of "disinfect" and "EPA registered disinfectant" be consolidated in Sec. 3.1, and that Sec. 3.55(c)(2) reference the definition rather than redefining the term within that section.
- (6) The Committee requests an explanation as to why "Gray's Anatomy" would be deleted as a requirement for barber schools.

Please feel free to contact my office if any questions should arise.

Sincerely,

Mario J. Civera, Chairman
House Professional Licensure Committee

Regulation 16A-424

State Board of Barber Examiners

PROPOSAL: Regulation 16A-424 amends 49 PA Code, Chapter 3, regulations of the State Board of Barber Examiners. The amendments revise the provisions pertaining to sanitation standards in barber shops and barber schools, and revise other provisions pertaining to required equipment, barber curriculum, licensure examination and unlicensed personnel.

The proposed Rulemaking was published in the Pennsylvania Bulletin on May 26, 2001. The Professional Licensure Committee has until July 16, 2001 to submit comments on the regulation.

ANALYSIS: The Board's regulations pertaining to sanitation and disease control have not been amended since 1992. The proposed amendments would recognize technological advances in preventing the spread of disease through the use of chemicals and disinfectants regulated by the Federal Environmental Protection Agency (EPA). References to the term "sterilization" would be replaced with the terms "disinfect" and "cleanse," since sterilization is now associated with infection control in highly sensitive environments such as hospitals. Sterilization is not required of equipment used in barber shops and schools, so Sec. 3.55 pertaining to barber shops, and Sec. 3.86 pertaining to barber schools would be amended to contain the primary requirements for sanitation and disinfection of equipment and implements.

Sec. 3.43 would be amended to include mannequins in the list of tools an applicant should bring to the practical portion of the licensure exam. Sec. 3.54, pertaining to required equipment in barber shops, would be amended to decrease the amount of items that are no longer widely used in shops. Sec. 3.57, pertaining to shampoo personnel, would be deleted in that it is redundant with Sec. 13(a) of the Barber License Law. Sec. 3.71 would be amended to reflect that barber students may be taught by both barber teachers and barber managers. Subjects would be added to the curriculum for practical work to reflect modern barber practices.

Sec. 3.72(a) would be amended to clarify that student records be kept for inspection by the Board. Sec. 3.72(b) would be added to require barber teachers or managers to keep quarterly reports of hours earned by students training in shops. Sec. 3.88 would be amended to reflect that a barber school must, at all times, be under the immediate supervision of a licensed teacher rather than a supervisor who possesses a teacher's certificate.

RECOMMENDATIONS: It is recommended that the Professional Licensure Committee take no formal action until final form regulations are promulgated. However, the Committee submits the following comments:

- (1) The Committee recommends that the title of Sec. 3.86, "Maintenance and sterilization," be changed to "Maintenance and sanitation" to be consistent with the proposed title of Sec. 3.55 and to more accurately reflect the content of that section.
- (2) On page 3 of the Preamble, reference is made to Sec. 7.73, when the appropriate section is actually Sec. 3.73.

- (3) Throughout the Barber License Law, reference is made to the licensure categories of "manager-barber" and "barber-teacher." Sec. 3.12 of the proposed regulations, in part, refers to "teacher" rather than "barber-teacher." Sections 3.22, 3.41 and 3.71 use the terminology "barber-manager" rather than the statutory language of "manager-barber." The Committee recommends that the regulatory language be consistent with the statutory language.
- (4) Sec. 3.54(5) would be amended to require a sanitary headrest for "every two chairs." Sec. 3.54(18) would be amended to change the equipment requirement of at least six combs for each chair in operation to an unspecified number of combs. The Committee requests an explanation of the rationale for these changes and questions whether they would result in any reduction in sanitary standards.
- (5) Sec. 3.55(c)(2), pertaining to the requirement of disinfecting equipment with an EPA registered disinfectant, uses virtually the same language as provided in Sec. 3.1 for the definition of "disinfect." The Committee recommends that the definitions of "disinfect" and "EPA registered disinfectant" be consolidated in Sec. 3.1, and that Sec. 3.55(c)(2) reference the definition rather than redefining the term within that section.
- (6) The Committee requests an explanation as to why "Gray's Anatomy" would be deleted as a requirement for barber schools.

Regulation 16A-602

State Board of Vehicle Manufacturers, Dealers and Salespersons

PROPOSAL: Regulation 16A-602 amends 49 PA Code, Chapter 19, regulations of the State Board of Vehicle Manufacturers, Dealers and Salespersons. The amendment would make regulatory language consistent with amendments made in 1996 to the Board of Vehicles Act.

The proposed Rulemaking was published in the Pennsylvania Bulletin on May 26, 2001. The Professional Licensure Committee has until July 16, 2001 to submit comments on the regulation.

ANALYSIS: The Board of Vehicles Act, (P.L. 306, No. 84), was amended by Act 27 of 1996 to change terminology and licensure categories. The proposed regulatory amendments bring the regulations up to date and conform to the statutory amendments. The following definitions would be deleted from Sec. 19.2 in that they are defined in the Act: Board, Dealer, Distributor branch, Factory branch, Factory representative, Manufacturer, Retail sale or sale at retail, Motor vehicle and Vehicle salesperson. The definition for "Camping trailer" would be deleted because the term is not used in the Act or regulations. The definition for "Engaging in the occupation of vehicle salesperson" would be amended to clarify that the display, demonstration and offer for sale of vehicles is part of the business of a vehicle salesperson. A definition for "Interest in vehicles" would be added to reflect the Board's interpretation that the lease of a vehicle is not encompassed in the phrase "interest in vehicles" as used in the Act's definition of "dealer."

Sec. 19.4, pertaining to fees, would delete references to "wholesale" distributor license since there is no longer a reference to wholesalers in the act. The term "broker" would be deleted since dealers and auctions now perform broker activities. "Used vehicle lot license application" would be deleted since the Act no longer distinguishes between new and used vehicle dealers.

Sec. 19.15, pertaining to termination of employment would delete the requirement that a dealer surrender a salesperson's license to the Board within 10 days of termination since that provision is contained in the Act. Sec. 19.16, pertaining to penalties, would be deleted in its entirety since the penalties for unlicensed practice are set forth in Sec. 28 of the Act. Reference to brokers in Sec. 19.17 would be deleted since brokers are no longer a class of licensee under the Act. References to trailers, semi trailers, recreational vehicles, mobile homes, house trailers and office trailers in Sec. 19.18(a)(3) because the Act does not distinguish between types of trailers.

Sec. 19.22, pertaining to investigation, would be amended by deleting subsections 1 through 8 and 18 through 23, and renumbering the remaining sections. These sections would be deleted because they address matters addressed in the Act. Current Sec. 19.23 would be deleted because the provisions are addressed by Sec. 32 and 33 of the Act. Sec. 19.23 would be retitled "Vehicle shows, off-premises sales and exhibitions." This section would limit the amount of time an off-premises sale may run, in order to effectuate the intent of the Act that vehicles be sold from licensed premises.

RECOMMENDATIONS: It is recommended that the Professional Licensure Committee take no formal action until final form regulations are promulgated. However, the Committee submits the following comments:

- (1) The proposed draft for the renumbering of the subsections of Sec. 19.22 would appear to result in having two (1)'s for the first subsection.
- (2) The Committee questions why a subsection (a) is necessary for proposed Sec. 19.23 when there are no other proposed subsections.

- (3) The Committee recommends that sections that are to be wholly deleted be marked as "Reserved."
- (4) The Board intends to delete subsections 1 through 8 and 18 through 23 of Sec. 19.22 in that they are matters already addressed in the Act. The Committee recommends that the phrase "in addition to those acts enumerated in the Board of Vehicles Act" be included in Sec. 19.22, in order to put licensees on notice that there are prohibited acts enumerated in the Act in addition to those set forth in the regulation.

REVIEW COMMISSION

Regulation 16A-424

State Board of Barber Examiners

PROPOSAL: Regulation 16A-424 amends 49 PA Code, Chapter 3, regulations of the State Board of Barber Examiners. The amendments revise the provisions pertaining to sanitation standards in barber shops and barber schools, and revise other provisions pertaining to required equipment, barber curriculum, licensure examination and unlicensed personnel.

Regulation 16A-424 is Final Rulemaking which was delivered to the Professional Licensure Committee on October 3, 2002. The Professional Licensure Committee has until October 23, 2002 to approve or disapprove the regulation.

ANALYSIS: The Board's regulations pertaining to sanitation and disease control have not been amended since 1992. The proposed amendments would recognize technological advances in preventing the spread of disease through the use of chemicals and disinfectants regulated by the Federal Environmental Protection Agency (EPA). References to the term "sterilization" would be replaced with the terms "disinfect" and "cleanse," since sterilization is now associated with infection control in highly sensitive environments such as hospitals. Sterilization is not required of equipment used in barber shops and schools, so Sec. 3.55 pertaining to barber shops, and Sec. 3.86 pertaining to barber schools would be amended to contain the primary requirements for sanitation and disinfection of equipment and implements.

Sec. 3.43 would be amended to include mannequins in the list of tools an applicant should bring to the practical portion of the licensure exam. Sec. 3.54, pertaining to required equipment in barber shops, would be amended to decrease the amount of items that are no longer widely used in shops. Sec. 3.57, pertaining to shampoo personnel, would be deleted in that it is redundant with Sec. 13(a) of the Barber License Law. Sec. 3.71 would be amended to reflect that barber students may be taught by both barber teachers and barber managers. Subjects would be added to the curriculum for practical work to reflect modern barber practices.

Sec. 3.72(a) would be amended to clarify that student records be kept for inspection by the Board. Sec. 3.72(b) would be added to require barber teachers or managers to keep quarterly reports of hours earned by students training in shops. Sec. 3.88 would be amended to reflect that a barber school must, at all times, be under the immediate supervision of a licensed teacher rather than a supervisor who possesses a teacher's certificate.

The Committee noted that throughout the Barber License Law, reference is made to the licensure categories of "manager-barber" and "barber-teacher." Sec. 3.12 of the proposed regulations, in part, referred to "teacher" rather than "barber-teacher." Sections 3.22, 3.41 and 3.71 used the terminology "barber-manager" rather than the statutory language of "manager-barber." The Committee recommended that the regulatory language be consistent with the statutory language. The Board has adopted that recommendation.

The Committee requested an explanation for the amendments regarding the number of headrests and combs that would be required per barber chair. The Board states that headrests on modern barber chairs are removable and not needed for all services that are performed. The amended regulation will allow barbers to provide the services that require a headrest while eliminating the need to store unused equipment. The designation of at least 6 combs per chair will likewise eliminate the need to store unused equipment and allow barbers to choose the number of combs they believe necessary to perform services. The Board further states that the changes will not result in a reduction of sanitary standards.

The Committee noted that Sec. 3.55(c)(2), pertaining to the requirement of disinfecting equipment with an EPA registered disinfectant, uses virtually the same language as provided in Sec. 3.1 for the definition of "disinfect." The Committee recommended that the definitions of "disinfect" and "EPA registered disinfectant" be consolidated in Sec. 3.1, and that Sec. 3.55(c)(2) reference the definition rather than redefining the term within that section. The Board elected to not consolidate the two terms, but has referenced both Secs. 3.55(c)(2) and 3.86(b)(2) to the definition of "disinfect" as provided in Sec. 3.1

The Committee recommended that the title of Sec. 3.86, "Maintenance and sterilization," be changed to "Maintenance and sanitation" to be consistent with the proposed title of Sec. 3.55 and to more accurately reflect the content of that section. The Board has adopted this recommendation.

The Committee requested an explanation as to why "Gray's Anatomy" would be deleted as a requirement for barber schools. The Board states that Sec. 3.85(a)(10) requires barber schools to maintain a set of library books on anatomy, and that reference to a specific anatomy book is being deleted in order to allow barber schools to choose from the various anatomy books published.

RECOMMENDATIONS: It is recommended that the Professional Licensure Committee approve the regulation.
