

THE ENVIRONMENTAL QUALITY BOARD,

I AM WRITING TO ASK YOU TO STRENGTHEN PENNSYLVANIA'S RULES ABOUT OUR RIGHT TO KNOW ABOUT THE QUALITY OF THE PUBLIC'S DRINKING WATER BY REQUIRING UTILITIES TO NOTIFY THE MEDIA WITHIN 24 HOURS ANY TIME OUR WATER VIOLATES STATE STANDARDS AND BY USING MULTIPLE METHODS TO INFORM THE PUBLIC WHEN WATER IS UNSAFE. THE ENVIRONMENTAL QUALITY BOARD SHOULD ALSO REQUIRE THAT CONSUMER CONFIDENCE REPORTS LIST SPECIFIC POLLUTERS BY NAME WHEN DATA IS AVAILABLE.

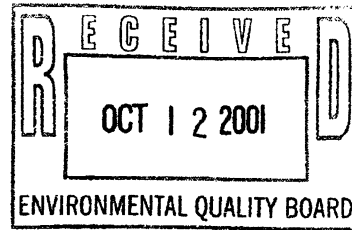

THANK YOU FOR YOUR TIME,

REBECCA DANER

Dear Sir, Madam

- Require utilities to notify the media within 24 hours any time our water violates state standards and use multiple methods to inform us when our water is unsafe.
- Require that Consumer Confidence Reports list specific polluters by name when data is available

Thanks, Therese

Dear Sirs -

I am requesting you to strengthen Pennsylvania public's right to know about the quality of our drinking water.

Please have utilities notify the media within 24 hours if our water violates state standards and use different, multiple methods if it's found to be unsafe.

Please require consumer reports to list pollutants by name if available.

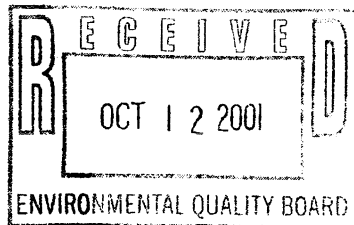

Thank you -

Barbara Gray

September 19, 2001

To Whom It May Concern:

I have recently been informed about rules regarding our drinking water that seem to be too lenient. I am writing to request that utilities notify the media within 24 hours any time our water violates state standards. Knowing that every person does not use the same medium for information, I also include that multiple methods should be used to inform us when our water is unsafe. In addition, to ensure the community is well informed, I request that Consumer Confidence Reports list health effects for all contaminants detected in our water. I hope you take these requests seriously and know that they only seem fair to the community for health reasons. Thank you.

Sincerely,

Cézanne Cocolin

Harrisburg, PA 17105-8477

2001 OCT 05 PM 7:05
RECEIVED

To Whom It May Concern:

Earlier this evening, I spoke with Erin Muzzy, a volunteer for Clean Water Action's Philadelphia office. One of the issues we discussed was taxpayers' lack of access to information about the quality of drinking water in Pennsylvania. Since my body is more than 70% water, I like to know if there is anything harmful in the tap water that I drink each day. Think of that- 70%! That's a lot of water, and a lot of things that could go wrong if a harmful substance were in that water. I'd hate to know that my health was being compromised by the lack of action on the part of officials whom my tax dollars help support. I ask two things of you to help fix this problem:

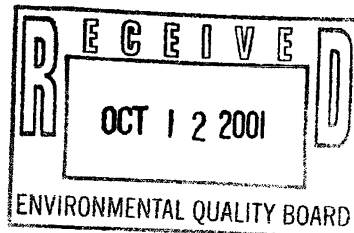

- Please require that utilities notify the media within 24 hours any time my water violates state standards and please use multiple methods to inform me and my fellow taxpayers when our water is unsafe.
- Please require that the Consumer Confidence Reports list specific polluters by name, be they corporations, consortiums or individuals, when such information is available.

I appreciate your attention to this matter and hope that you will take action as soon as you can.

Sincerely,

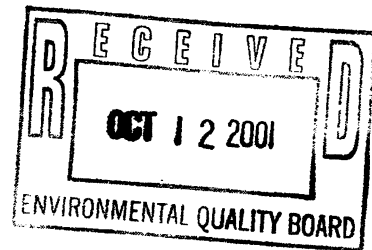

Andrew Fleming

DEAR SIRS / MADAMS

IT IS VERY IMPORTANT TO ME AND MY FAMILY THAT YOU STRENGTHEN THE RULES IN PA IN REGARDS TO THE QUALITY OF DRINKING WATER.

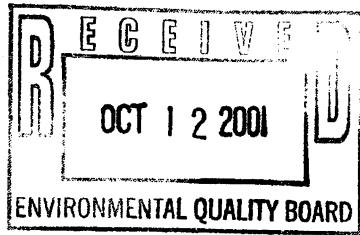

THE LEGISLATOR SHOULD REQUIRE THE UTILITIES TO NOTIFY THE MEDIA WITHIN 24 HOURS ANY TIME OUR WATER VIOLATES STATE STANDARDS. THIS NOTIFICATION SHOULD BE DONE IN A VARIETY OF WAYS.

ALSO CONSUMER CONFIDENCE REPORTS SHOULD BE SENT TO ALL CONSUMERS, NOT JUST BILL-PAYING CUSTOMERS.

THE QUALITY OF OUR WATER IS VERY IMPORTANT TO US.
THANK YOU FOR YOUR HELP.

Re: Proposed Rulemaking – Safe Drinking Water (#7-368)

Dear Mr. Nyce:

The Environmental Quality Board has received 71 additional form letters regarding the above referenced proposed rulemaking. The letters were sent electronically, and separately, by Clean Water Action from October 16 - 22, 2001. An example of two types of letters and a list of the addressees are attached.

Copies have also been forwarded to the Senate and House Environmental Resources and Energy Committees. Please contact me if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads 'S. F. Trostle'.

2001 OCT 24 AM 8:43

PA DEPARTMENT OF ENVIRONMENTAL PROTECTION
REVIEW COMMISSION

To Whom It May Concern,

I am writing in response to the PA-DEP's new Public Notification and Consumer Confidence Report Rules. These regulations are critical to letting all Pennsylvanians, particularly the vulnerable populations most at risk, to protect themselves from contaminants in their water that could make them sick.

I have the following concerns:

Public Notification Rule: I am concerned that the proposed rule will weaken some of the existing protections afforded to residents of Pennsylvania, in some cases actually delaying notification when our water is unsafe to drink.

Notification of the media within 24 hours: Under the proposed rule, it may sometimes be as long as 30 days before the public is notified that unhealthy levels of arsenic or some other cancer-causing chemicals have been found in their tap water. This is obviously unacceptable. Consumers should be informed of any violation of state drinking water standards as soon as possible so that they can take steps to protect their health. The quickest way to do this is to require that utilities notify local newspapers and the broadcast media of any Tier I or Tier II violation within 24 hours.

Use multiple methods of notification to reach people: While immediate notification of the media is important, using the media alone is not sufficient. Multiple methods of notification need to be utilized in order to reach all consumers of the water supply, particularly for the most serious violations (Tier I). In addition, using a posting as the only means of informing the public about a drinking water violation is not sufficient. Utilities should be required to use several of the available options for informing their consumers about potential threats to their health, especially for the most serious Tier I violations.

Send repeat notices of continued violations within 30 days: DEP's current proposal would allow utilities to wait up to 90 days before notifying consumers when violations of drinking water standards continue. Notices that the water continues to be unsafe should be sent out at least every 30 days to ensure that people continue to take precautions to protect their health.

Consumer Confidence Report Rule: I urge the EQB to include the following changes in the rule governing the annual water reports sent to customers.

Distribute the report to all consumers: Mailing reports only to bill-paying customers ignores a substantial portion of the population. Individuals who rent and don't generally pay water bills, which include lower-income people and the elderly, are often more vulnerable to water related health problems. However, most renters will never receive a report under the proposed rules. A recent survey of over 100 Consumer Confidence Reports from across Pennsylvania found several feasible and affordable for utilities to supply reports to all consumers. All utilities should be required to do so.

Name specific polluters by name: Water utilities are required to list known sources of contamination by name in the reports when "reliable"

information is available. I urge the DEP to define "reliable" in order to give clearer directions to utilities. I suggest that utilities be required to list specific sources of contamination when data from any of the following sources is available: source water assessments, sanitary surveys, the Toxic Release Inventory, Discharge Monitoring Reports or state or federal Superfund data. Utilities should use other information as available but these specific resources should be referenced in order to provide clear direction to utilities.

Provide health information for all detected contaminants: The proposed regulations only require utilities to include health effects language for detected contaminants that violate state or federal drinking water standards (with several exceptions for which additional health language is required). I believe that consumers should be provided health effects information for all detected contaminants. Again, several utilities in Pennsylvania have taken steps to include with information in their reports without causing public alarm or incurring additional costs.

Make available a full non-English translation of the report: The proposed regulations require systems that have a large portion of non-English speaking residents to include information in the appropriate language expressing the importance of the report and urging the reader to find someone to translate it. That is not sufficient. I believe that if a water utility serves a community where at least five percent of the population does not speak fluent English, the utility should be required to translate its CCR into that language. Further, it should place a prominent notice that language in the report sent to all consumers announcing the availability of the translated version. This is the only way to guarantee accurate information is provided to non-English speaking populations.

I appreciate the opportunity to comment, and look forward to a positive response from the Board and the Department.

Sincerely,

Kris Acevedo
2100 North Line St
Lansdale, PA 19446

Comment:

Dear Environmental Quality Board

Please strengthen the proposed rules for Public Notification and Consumer Confidence Reports that were recently published in the Pennsylvania Bulletin.

Receiving timely and accurate information about the quality of drinking water is very important to protect our health.

I urge you to make the following changes to the proposed rules:

Public Notification Rule:

- Require all utilities to notify the media within 24 hours whenever their water violates a state drinking water standard.
- Require utilities to use multiple methods to notify the public, especially for the most serious violations.

Consumer Confidence Reports:

- Make sure that Consumer Confidence Reports (CCR's) list specific polluters by name when reliable data is available from government reports or databases.
- Require that CCR's be sent to all consumers, not just bill paying customers.
- Make sure that CCR's include health effect information for all detected contaminants.

Senator Greenleaf,

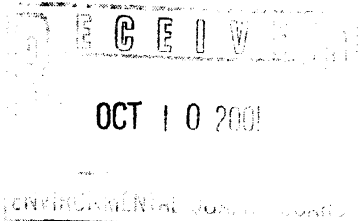

Please make sure that the pesticide notification ASCT is passed this year.

I would like to thank you for your leadership in introducing the Senate version of the Pesticide Notification Act and leading the fight for action.

It is very important that the HB 1289 is passed by the Senate this fall. We want our children protected as quickly as possible.

Sincerely,

Delores Miller

Dear Sirs,

I am concerned that weakening
the Public Notification Rule
and the Consumer Confidence

Report Rule is Bad
For the People of this State.
Please strengthen these Rules
By Requiring utilities to
Notify the Media of any instance
when our water does not meet
state standards within 24 hrs
and use more than one method to
inform us of such. also
Require that Consumer Confidence
Reports list health effects of all
(over)

Pennsylvania Dept of Environmental Protection:

I am writing to request a strengthening of Pennsylvania's rules about our right to know about our drinking water.

Specifically, I believe that the utilities should notify the public within 24 hours any time our water violates state standards.

Thank you,

Paul H. H.

Senator Ralph Musto,
Main Capitol
Harrisburg, PA 17120

Dear,

Environmental Quality Board,
and
Senator Ralph Musto,

Yesterday, I was approached by a woman about the Clean Water Act currently up for approval and legislation to be passed. This requires the utility companies to notify the media within 24 hours that our water violates the standards. I back this issue. I'd like to see that these ideas are passed. Also, the notification methods used should be various in nature to properly notify all customers, using multiple means of media.

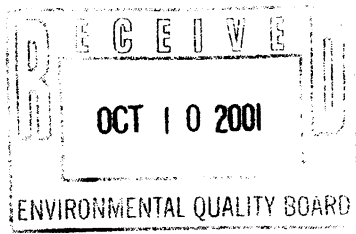

As a result of any significant issue with our water supply, I also want to back up the Reporting requirements to the customer. I back the requirement that the "Customer Confidence Reports" list specific polluters by name when the proper data is available.

I appreciate being informed of the issues above and would encourage legislation to support the requests stated above.

Respectfully,

A handwritten signature in cursive script, appearing to read "Karl Drahovsky".

Re: Our Right to Know

Dear Sir/Madam;

I support strengthening Pennsylvania's rules regarding our right to know about the quality of our drinking WATER. Specifically, I believe that Utility Companies should notify the media within 24 hours any time our WATER VIOLATES STATE STANDARDS and use many methods to inform us when our WATER is UNSAFE. I also believe we should require "Consumer Confidence Reports" be sent to all consumers (not just the bill paying customers).

Sincerely,
Michael J. Murphy

October 3, 2001

Environmental Quality Board
P.O. Box 8477
Harrisburg, PA 17105-8477

Dear Environmental Quality Board,

We are writing to urge you to adopt stronger rules concerning the public's right to know about the quality of our drinking water. Optimally, such rules would, as a bare minimum, require our water utilities to notify the media within twenty-four hours any time the quality of the water we drink violates state standards. However, it would be desirable for the utilities to use additional methods to communicate directly to us the fact that our water is unsafe. Beyond requiring utilities to take effective steps to notify the public of problems with water quality, we urge you to require that Consumer Confidence Reports disclose all effects that contaminants detected in our water might have on our family's health.

The additional burden such rules would impose on utilities is minimal. Certainly, it pales in comparison with the importance of the public's right to know when our water is less pure than the state has determined to be satisfactory for public health and safety.

Sincerely,

Angela S. Helfer *Arleigh P. Helfer III*

ENVIRONMENTAL QUALITY BOARD

Dear Environmental Quality Board,

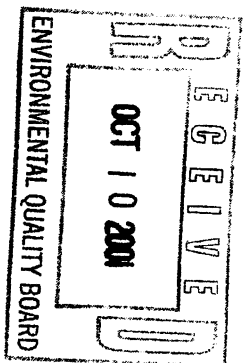

Please strengthen PA's rules about citizens' rights to know about the quality of our drinking water by:

- 1) Requiring utilities to notify the media within 24 hours anytime our water violates state standards.
- 2) Using multiple methods to inform us when our water is unsafe.
- 3) Requiring that Consumer Confidence reports be sent to all consumers, not just bill-paying consumers.

Thank you. Sincerely - Michele Barnathan

Dear Environmental
Quality Board,

Require utilities to
notify the media within 24
hours any time our water
violates state standards and
use multiple methods to
inform us when our water
is unsafe.

Require that Consumer
Confidence Reports list health
effects for all contaminants
detected in our water.
From,

Lina Zettl

Environmental Quality
Board -

Strengthen Pa. rules
about our right to
know about the
quality of drinking
water: require utilities
to notify the media
within 24 hrs. any time
water violates standards
and use multiple
methods to inform us
when our water
is unsafe
and over

REQUIRE utilities to
notify the media with-in
24 hours any time our
water violates state
standards and use multiple
methods to inform us when
our water is unsafe

REQUIRE that consumer
confidence reports list
specific pollutants by name
when data is available

To the Environmental Quality Board,

Protect our right to know when our drinking water is bad for our health. Please require utilities to notify the media within 24 hours anytime our water violates state standards and use multiple methods to inform us when our water is unsafe. Also, require that Consumer confidence reports list health effects for all contaminants detected in our water.

Thank you.

Sincerely,

Bonnie Schmelz &
Adam Rosenfeld

Dear Board Members, 10/3/01

I'm writing to urge you to strengthen PA's rules regarding our right to know about the quality of our drinking water.

I support a requirement for utilities to notify the media when the water is unsafe - within 24 hours of a violation.

I also support a broad distribution of Consumer Confidence Reports to all consumers.

Thank you.

Dear Sir:

I am in support of strengthening
PA rules about our right to know about
the quality of our drinking water:

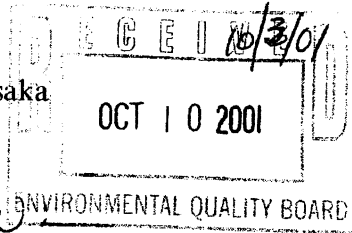

a) require utilities to notify the media
within 24 hrs. anytime our water
violates state standards ^{or} use multiple
methods to inform us when our water
is unsafe; ^{or}

b) require that Consumer Confidence Report
list health effects for all
contaminants detected in our water.

Sincerely,
Marianne McKee

Stephanie I. Hasaka

To Whom it may concern.

First off, I feel frustrated to think I have to write a note for continuation of Environmental Protection. This protection should be a "given". Has "Big Business" become so money conscious they disregard human value!

The Pa. Rules should be maintained at the highest standards and the media should be notified of any violations within 24 hrs. Consumer Confidence Reports should list all health effects from contaminants detected in our water.

My life has value and my families. I certainly hope the CEO's of corporations haven't forgotten that.
