REVIEW SUBMISSION

Dear Sir or Madam:

As a resident of Havertown, Pennsylvania I would greatly appreciate it the rules were strengthened regarding the quality of our drinking water. I would hereby declare that you do the following:

- Require utilities to notify the media within 24 hours any time our water violates state standards and use multiple methods to inform us when our water is unsafe.
- Require that Consumer Confidence Reports lists the specific polluters by name when data is available.

I thank you very much for your time and entrust in you to partake in the following.

Sincerely,

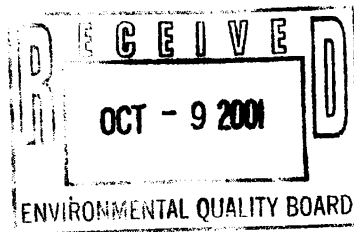

JASON RODRIGUEZ  
113 Foster Avenue  
Havertown, PA 19083

Dear  
Environmental Quality  
Board,

Require utilities to notify  
the media with in 24 hours  
any time our water violates  
state standards and use  
multiple methods to inform  
us when our water is unsafe

Require that Consumer  
Confidence Reports be sent to  
all consumers, not just bill-  
paying customers.

Harrisburg, PA 17105-8477

To Whom It May Concern:

As a concerned citizen, I feel that Pennsylvania's rules about drinking water and public awareness of those rules need to be strengthened. If our water violates state standards, utilities need to notify the media within 24 hours. As many ways as possible need to be used to inform us - radio, TV, e-mail, phone calls, etc.

Also, the Consumer Confidence Reports should list polluters by name, when that data is available.

Thank you for your

Dear Environmental Quality Board,

Please do something about the quality  
of our drinking water.

Several ways would be to

Strengthen Pennsy law's rules about  
our right to know more about the quality  
of our drinking water.

A Requirement of the utility to notify the  
media within 24 hours when a violation of the  
States standards has been made.

also, Please have the consumer Confidence  
Reports list health effects for all contaminants  
detected in our water.

Thank you for your attention in this  
matter.

Regards,

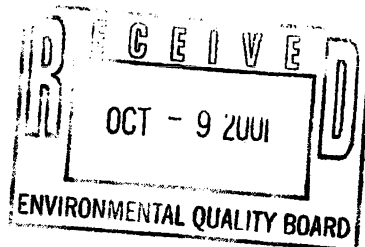

Debra C. Goodyear -

Environmental Quality Board

Dear Sir or Madam:

It has come to my attention that the Pa. DEP is interested in public comment on the Public Notification Rule and the Consumer Confidence Report Rule, both of which affect the rights of consumers to know and understand the contaminants in their drinking water. I would like to see rules and regulations strengthened that affect the following:

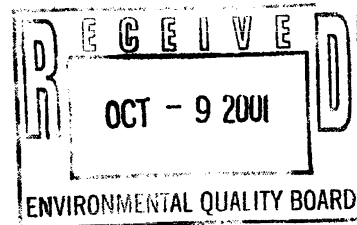

The quality of our water supply

The media and public access to information about our water supply

Require that the Consumer Confidence Reports list specific polluters by name when data is available.

Thank you,

Deena Belikoff

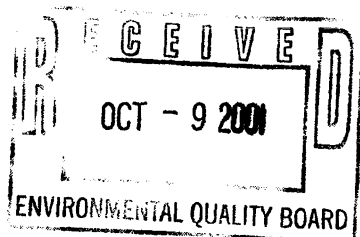

*[Click here and type slogan]*

To whom it may concern,

It has been called to my attention that we, the people of the community, are not well informed with many issues. We should be notified in short time if our water does not meet standards, forward more, we the people should know of any health problems that could occur in the water. Thank You.

Trina Andrews  
&  
Jen

Environmental Quality Board  
P.O. Box 8477  
Harrisburg PA 17105-8477

To Whom It May Concern:

Please strengthen the proposed rules for Public Notification and Consumer Confidence Reports that were recently published in the Pennsylvania Bulletin.

Receiving timely and accurate information about the quality of drinking water is very important to protect our health.

I urge you to make the following changes to the proposed rules:

**Public Notification Rule:**

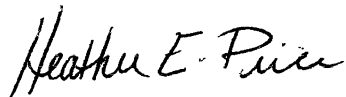

- Require all utilities to notify the media within 24 hours whenever their water violates a state drinking water standard.
- Require utilities to use multiple methods to notify the public, especially for the most serious violations.

**Consumer Confidence Reports:**

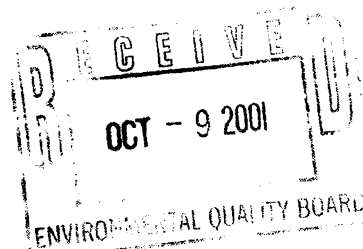

- Make sure that Consumer Confidence Reports (CCR's) list specific polluters by name when reliable data is available from government reports or databases.
- Require that CCR's be sent to all consumers, not just bill paying customers.
- Make sure that CCR's include health effect information for all detected contaminants.

Thank you.

Sincerely,

Heather E. Price

To Whom it may concern,

It has come to my attention that our public water utility is trying to thwart and weaken the Public Notification Rule and the Consumer Confidence Report Rule. As a lifelong citizen of Philadelphia, I have always had the utmost confidence in the Water Revenue Bureau. But, after hearing of their attempt to relieve themselves of the duty that they have towards the citizens of this city, I don't have a very secure feeling.

Water is essential to all living things...clean water that is. If we fail to be alerted to potential problems with our water supply, disaster will surely follow. Some chemicals, even in the most minute traces are carcinogenic, others arrest the brain development of babies and small children. Still others, make our water taste and smell foul.

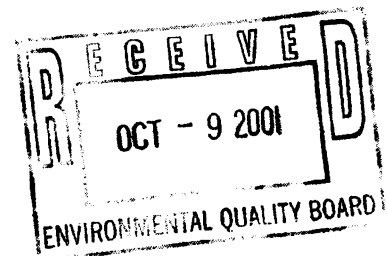

In this age of big business, it is important for large companies to be held accountable for what they are spewing into our waterways. It is of the highest necessity that we know what is being dumped, and by whom, so that these polluters will think twice before turning our drinking water into one large cesspool. Yes, reporting costs money, but isn't it worth the piece of mind knowing that we and our children are drinking and bathing in safe water? Isn't it worth a little extra money to know that the water we consume won't cause a deadly cancer in years to come?

Easing reporting restrictions isn't just unwise. It would be a fatal blow to our piece of mind, as well as to our bodies.

Sincerely,

Randi Bernardo

September 25, 2001

Dear Members of the Environmental Quality Board,

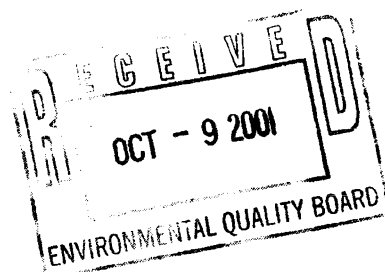

Please ensure that the state of Pennsylvania's rules protecting the public's right to be made aware of the quality of our drinking water remain strong. I ask you to require utilities to notify the media within 24 hours any time water quality violates state standards. Multiple methods could be used to notify the public when water is actually unsafe. I also ask that you require that Consumer Confidence Reports list specific polluters when such data is available. Thank you for your attention to this very important matter.

With appreciation,

Florence Manson

Environmental Quality Board  
PO Box 8477  
Harrisburg , PA 17105-8477

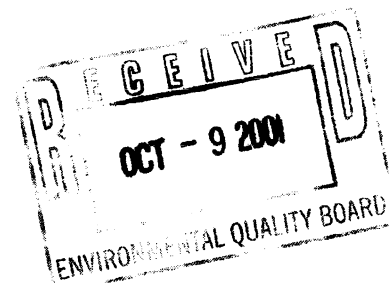

Dear Sir or Madam,

I am writing as a concerned citizen of the state of Pennsylvania, in the interest of improving water quality in our state. To lessen the risk of harm from contaminated water, the public must be aware of any incident of contamination. Because of this, I believe that the Public Notification Rule should be strengthened to require notification in 24 hours. This would give the public enough warning to avoid contact with the contaminated water. Also, The Consumer Confidence Reports should be complete, containing a list of all health effects related to contaminants found in the water supply. This way, the public can avoid the dangerous effects of pollution. Thanks for listening to my concerns.

Sincerely,

Edmund B. Allison

Dear Sir or Madam:

As a life long resident of Pennsylvania, I expect that all consumer confidence reports list specific polluters by name when the information is available. This action should also require utilities to inform the media and other worthy agencies within a twenty four hour period when our water violates state standards, and to inform the public when it's unsafe.

Sincerely,

De Andre' M. Buie

As a concerned citizen,  
Consumer Confidence Reports  
should provide information  
and a census on all polluters  
by name. All utility companies  
should have mandatory restrictions  
and therefore notify the media  
within a 24 hour time period  
of reported unsafe ~~water~~ drinking  
water.

Sincerely,  
Joseph Muncie

9-25-01

Gentlemen;

We all have a right to clean water.  
Why? Because we pay the water co,  
to provide it. The state's responsibility  
is to monitor the production and  
testing of the water by the water co.  
The state should also force the water  
co. to inform the public if, through  
some ~~unforeseen~~ **GETIVE** pollution occurs.

OCT - 9 2001

ENVIRONMENTAL QUALITY BOARD

I am in favor of the Public Notification Rule & Consumer Confidence Report Rule. Pa.'s rules about our rights to know about the quality of our drinking water need to be strengthened.

Utilities need to be required to notify the media within 24 hrs. any time our water violates state standards & they need to use multiple methods to inform us when our water is unsafe.

Consumer Confidence Reports should be required to list health effects for all

Dear Environmental Quality Board,

Please require utilities to notify the media within 24 hrs any time our water violates state standards and use multiple methods to inform us when our water is unsafe.

Please require that Consumer Confidence Reports lists specific polluters by name when data is available.

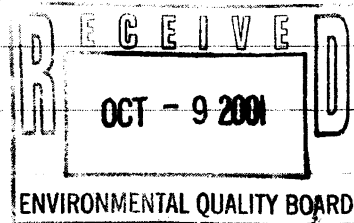

Thank-you

Pat Lopez

Re: Proposed Rulemaking – Safe Drinking Water (#7-368)

Dear Mr. Nyce:

The Environmental Quality Board has received comments regarding the above referenced proposed rulemaking from the following:

1. Bonnie J. Mazis (no address) (3 form letters received)
2. Gail Maletta (no address)
3. Mary Mulhen
4. Mara Berzins (6 form letters received)

These comments are enclosed for your review. Copies have also been forwarded to the Senate and House Environmental Resources and Energy Committees. Please contact me if you have any questions.

Sincerely,

Enclosures

To whom it may concern,

we support the idea that utilities should notify the media and any other relevant agencies or individuals within 24 hours any time our water violates state standards for safety or in any way threatens the safety and/or health of our children and ourselves.

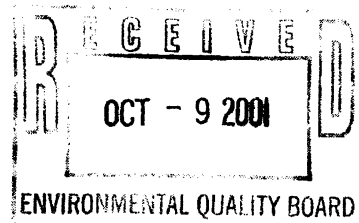

Furthermore we require that Consumer confidence reports regarding water safety and purity list specific polluters by name so the public is aware of exactly what is going on.

Please take into account that we are now facing the prospect of "hidden" enemies. We must be aware and alert and protect ourselves and our children!

Thank you for your cooperation and consideration,

Re: Proposed Rulemaking – Safe Drinking Water (#7-368)

Dear Mr. Nyce:

The Environmental Quality Board has received 150 additional form letters regarding the above referenced proposed rulemaking. The letters were sent electronically, and separately, by Clean Water Action from October 9 - 16, 2001. An example of two types of letters and a list of the addressees are attached.

Copies have also been forwarded to the Senate and House Environmental Resources and Energy Committees. Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink that reads 'S. F. Trostle'.
