Subject: Stream Redesignations Public Comment--25 PA.Code. Ch. 93

Dear DEP,

I am writing to show my support for your current proposal to add over 100 segments of waterways to the state's Special Protection Waters Program. Working to protect the state's waterways is an important part of protecting Pennsylvania's natural heritage and safeguarding our streams from potential pollution and degradation.

It is critical that we continue to take steps to protect Pennsylvania's rivers, lakes and streams. This is good for our economy, good for our environment and good for the public's health. These waterways often provide us with clean drinking water, important habitat for species and places that Pennsylvanians go to for recreational activities.

Please continue to give streams added protection under this program. I look forward to hearing back from you regarding this issue.

Sincerely,

Claudia Olivie
