(6) Type of Rulemaking (Check One) <input checked="" type="checkbox"/> Proposed Rulemaking <input type="checkbox"/> Final Order Adopting Regulation <input type="checkbox"/> Final Order, Proposed Rulemaking Omitted	(7) Is a 120-Day Emergency Certification Attached? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes: By the Attorney General <input type="checkbox"/> Yes: By the Governor	
(8) Briefly explain the regulation in clear and nontechnical language. <p>This proposed rulemaking would amend Chapter 401 regulations, which provide information used by the Coal and Clay Mine Subsidence Insurance (MSI) Board (Board) in the administration of the MSI Fund (Fund). The Board is comprised of the designees of the Secretary of the Department of Environmental Protection as Chairman, and the Insurance Commissioner and the State Treasurer as members. Chapter 401 provides definitions of commonly used terms, and codifies permanent provisions of the insurance policy (provisions that should not change, that are static). Static provisions of the insurance policy include provisions describing the eligibility criteria for coverage, the losses that are covered, and the rules governing the processing of claims. However, other provisions of the insurance policy that are dynamic and that the Board must often review and revise, such as coverage limits, premium surcharges, and policy durations, have been added to Chapter 401. This rulemaking would remove the dynamic provisions of the insurance policy from the regulations. The Board, under its authority, will promulgate those provisions in the insurance policy itself. In addition to the elimination of the dynamic provisions of the insurance policy from Chapter 401, this proposed rulemaking would also amend the definition of "mine subsidence" to more clearly state that mine subsidence is the movement of the ground surface that results from the collapse of underground coal or clay mine workings. The new term, "mine workings," is then defined. Finally, the effective date of coverage is revised to make it clear that coverage is effective when the Board receives a completed application and the premium payment in full.</p>		
(9) State the statutory authority for the regulation and any relevant state or federal court decisions. Section 19 of the Act of August 23, 1961 (P.L. 1068 No. 484), as amended, (52 P.S. §§ 3201-3225) (Act) provides that the Board shall have the power to make rules and regulations and other conditions of the policies.		

Regulatory Analysis Form

(10) Is the regulation mandated by any federal or state law or court order, or federal regulation? If yes, cite the specific law, case or regulation, and any deadlines for action.

The proposed rulemaking is not mandated by federal or state law or by court order.

(11) Explain the compelling public interest that justifies the regulation. What is the problem it addresses?

Since the Board reviews and revises the dynamic provisions of the insurance policy in its public meetings, as described in section 8 of this analysis, establishing those provisions in Chapter 401 leads to periodic discrepancies between the provisions contained in the insurance policy and the provisions contained in Chapter 401. Such discrepancies could lead to disputes between policyholders and the Fund (there are currently more than 53,000 policies in force and approximately 100,000 policyholders). Removing the dynamic provisions of the insurance policy from Chapter 401 eliminates the potential for such conflicting provisions. To further assist the policyholders and reduce the potential for conflicts between the policyholders and the Fund, this proposed rulemaking also amends the definition of "mine subsidence," adds and defines the term "mine workings," and amends the language related to the effective date of coverage, all as described in section 8 of this analysis.

(12) State the public health, safety, environmental or general welfare risks associated with non-regulation.

There are none. The Commonwealth is required by the act to establish and maintain the Fund. Chapter 401 facilitates the prudent operations of the Fund.

(13) Describe who will benefit from the regulation. (Quantify the benefits as completely as possible and approximate the number of people who will benefit.)

The improvements to the Fund's operations derived from the proposed regulations will ultimately benefit the MSI policyholders and the operations of the Fund. There are currently more than 53,000 structures insured, approximately 100,000 policyholders, and more than one million structures located over mine voids that could potentially be insured.

Regulatory Analysis Form

(14) Describe who will be adversely affected by the regulation. (Quantify the adverse effect as completely as possible and approximate the number of people who will be adversely affected.)

No one would be adversely affected by the regulations.

(15) List the persons, groups or entities that will be required to comply with the regulation. (Approximate the number of people who will be required to comply.)

Other than the requirement that claimants must contact the Fund within one year of the date of settlement to allow the Fund to inspect the repairs as a condition of continued coverage, a provision that is not being amended by this proposed rulemaking, there are no compliance provisions in Chapter 401. There are approximately 100,000 policyholders who currently subscribe to MSI.

(16) Describe the communications with and input from the public in the development and drafting of the regulation. List the persons and/or groups who were involved, if applicable.

Numerous policyholders have recommended increases to coverage limits and have requested that the coverage limits be revised on a more routine basis. The Board also reviews market conditions, such as real property appreciation and changes to building material costs as well as the financial position of the Fund when it routinely reviews limits of coverage and premium surcharges. The Board identified the need to remove all the dynamic provisions of the insurance policy from Chapter 401, amend the definition of "mine subsidence," add the term "mine workings," and revise language related to the effective date of coverage.

(17) Provide a specific estimate of the costs and/or savings to the regulated community associated with compliance, including any legal, accounting or consulting procedures which may be required.

There are no costs associated with this proposed rulemaking. The amendments proposed would facilitate the Board's efforts to keep coverage limits at levels that meet the needs of the policyholders as they are balanced against the Board's mandate to protect the solvency of the Fund.

Regulatory Analysis Form

(18) Provide a specific estimate of the costs and/or savings to local governments associated with compliance, including any legal, accounting or consulting procedures which may be required.

There would be no such efforts or costs.

(19) Provide a specific estimate of the costs and/or savings to state government associated with the implementation of the regulation, including any legal, accounting or consulting procedures which may be required.

The proposed amendments to Chapter 401 will not result in new costs but will eliminate the costs associated with revising the coverage limit, premium surcharges, and policy durations through regulations. Although the savings will not be measurable, the Board and its agent, the Department of Environmental Protection, may use the time they save by avoiding the regulatory process to focus on other aspects of the Fund's operations that may result in improvements and measurable savings.

Regulatory Analysis Form

(20) In the table below, provide an estimate of the fiscal savings and cost associated with implementation and compliance for the regulated community, local government, and state government for the current year and five subsequent years.

	Current FY Year	FY +1 Year	FY +2 Year	FY +3 Year	FY +4 Year	FY +5 Year
SAVINGS:	\$	\$	\$	\$	\$	\$
Regulated Community	0	0	0	0	0	0
Local Government	0	0	0	0	0	0
State Government	0	0	0	0	0	0
Total Savings	0	0	0	0	0	0
COSTS:						
Regulated Community	0	0	0	0	0	0
Local Government	0	0	0	0	0	0
State Government	0	0	0	0	0	0
Total Costs	0	0	0	0	0	0
REVENUE LOSSES:						
Regulated Community	0	0	0	0	0	0
Local Government	0	0	0	0	0	0
State Government	0	0	0	0	0	0
Total Revenue Losses	0	0	0	0	0	0

(20a) Explain how the cost estimates listed above were derived.

This rulemaking has no measurable financial impacts on the Fund.

Regulatory Analysis Form

(20b) Provide the past three year expenditure history for programs affected by the regulation.

Program	FY-3	FY-2	FY-1	Current FY
MSI Program				
086 Fund				
App. 291 Admin.	\$2,128,152	\$1,904,291	\$2,178,499	\$742,639*
App. 292 Claims	\$453,094	\$231,949	\$338,688	\$575,744

(21) Using the cost-benefit information provided above, explain how the benefits of the regulation outweigh the adverse effects and costs.

As noted, the proposed regulations are expected to be revenue neutral.

* The total 291 appropriation for the current fiscal year is \$3,001,000. The \$742,639 expenditure shown for the current fiscal year covers the period from July 1, 2003 to December 4, 2003.

Note: The 291 Appropriation provides funding for the administration of the MSI Fund. The 292 Appropriation provides funding for the payment of damage claims and premium refunds. Claims have been minimal over the past four years. However, the potential for increased losses always exists. Currently, the MSI Fund reserve is approximately \$40,000,000 and the value of the underwritten coverage, which constitutes the maximum loss for which the MSI Fund has liability, exceeds \$5,000,000,000. Over the past 10 years, the MSI Fund reserves have grow at a rate of about 12% per year.

(22) Describe the nonregulatory alternatives considered and the costs associated with those alternatives. Provide the reasons for their dismissal.

In effect, the proposed amendments will eliminate the need for future rulemakings to modify coverage limits, premium surcharges and policy durations. There are no costs associated with the Board making those provisions of the insurance policy during its meetings.

(23) Describe alternative regulatory schemes considered and the costs associated with those schemes. Provide the reasons for their dismissal.

There are no practical alternatives to the proposed regulations.

Regulatory Analysis Form

(24) Are there any provisions that are more stringent than federal standards? If yes, identify the specific provisions and the compelling Pennsylvania interest that demands stronger regulation.

There are no companion federal statutes or regulations.

(25) How does the regulation compare with those of other states? Will the regulation put Pennsylvania at a competitive disadvantage with other states?

Other states that operate mine subsidence insurance programs also establish the conditions of coverage in their insurance policies. The states providing mine subsidence coverage do not compete for subscriptions. Individual states only provide coverage in their own state. The amendments in this regulation will not have a financial impact on the Fund.

(26) Will the regulation affect existing or proposed regulations of the promulgating agency or other state agencies? If yes, explain and provide specific citations.

No government agencies will be affected by these regulations.

(27) Will any public hearings or informational meetings be scheduled? Please provide the dates, times, and locations, if available.

The amendments are deemed to be so minor and uncontroversial that public meetings or hearings are not planned. All comments will be provided during a 30-day public comment period.

Regulatory Analysis Form

(28) Will the regulation change existing reporting, record keeping, or other paperwork requirements? Describe the changes and attach copies of forms or reports which will be required as a result of implementation, if available.

These amendments to Chapter 401 will not change any paperwork requirements.

(29) Please list any special provisions which have been developed to meet the particular needs of affected groups or persons including, but not limited to, minorities, elderly, small businesses, and farmers.

These amendments to Chapter 401 impact all policyholders equally.

(30) What is the anticipated effective date of the regulation; the date by which compliance with the regulation will be required; and the date by which any required permits, licenses or other approvals must be obtained?

These regulations will become effective on the date they are published as a final rulemaking. There are no compliance or permitting deadlines.

(31) Provide the schedule for continual review of the regulation.

The Board reviews Chapter 401 on an annual basis or more often when necessary.

NOTICE OF PROPOSED RULEMAKING

**DEPARTMENT OF ENVIRONMENTAL PROTECTION
COAL AND CLAY MINE SUBSIDENCE INSURANCE BOARD**

Mine Subsidence Fund

25 Pa. Code, Chapter 401

**Notice of Proposed Rulemaking
Department of Environmental Protection
Coal and Clay Mine Subsidence Insurance Board
25 Pa. Code, Chapter 401
Mine Subsidence Fund**

Preamble

The Coal and Clay Mine Subsidence Insurance Board (Board) proposes to amend 25 Pa. Code, Chapter 401 relating to the administration of the Mine Subsidence Insurance Fund (Fund) and Program (Program). These amendments are proposed to revise ambiguous terms and provisions contained in Chapter 401 and to remove from Chapter 401 dynamic provisions of the insurance policy, i.e., coverage limits, premium surcharges and policy durations. Such dynamic provisions of the insurance policy are established by the Board and are contained in the Insuring Agreement, which is the contract between the Fund and its policyholders and which is a part of the insurance policy, so that they can expeditiously be modified by the Board as needed.

This proposed rulemaking was adopted by the Board at its meeting of December 18, 2003.

A. Effective Date

These amendments will go into effect upon publication in the *Pennsylvania Bulletin* as final rulemaking.

B. Contact Persons

For further information contact Lawrence Ruane, Administrator, Mine Subsidence Program, P.O. Box 8462, Rachel Carson State Office Building, Harrisburg, PA 17105-8462, (717) 783-9590, or Marc Roda, Assistant Counsel, Bureau of Regulatory Counsel, P.O. Box 8464, Rachel Carson State Office Building, Harrisburg, PA 17105-8464, (717) 787-7060. Information regarding submitting comments on this proposal appears in Section I of this preamble. Persons with a disability may use the AT&T Relay Service by calling 1-800-654-5984 (TDD users) or 1-800-654-5988 (voice users). This proposal is available electronically through the DEP Web site (<http://www.dep.state.pa.us>).

C. Statutory Authority

Section 19 of the Act of August 23, 1961 (P.L. 1068 No. 484), as amended, (52 P.S. §§ 3201-3225) (Act) provides that the Board shall have the power to make rules and regulations and other conditions of the policies.

D. Background and Purpose

The Fund was created in 1961 to provide a reliable source of compensation for losses caused by coal and clay mine subsidence, a risk excluded from standard homeowners insurance policies. The Fund is vital to the economic well being of Pennsylvania's coal mining regions because it underwrites potential losses to real property and thereby facilitates the collateralization of real property that is needed for economic growth in the housing industry.

Section 1 of the Act created the Board. It consists of the Secretary of the Department of Environmental Protection (Department) as Chairman, and the State Treasurer and the Insurance Commissioner as Members. A listing of the Board members is available upon request from Lawrence Ruane, whose name, address and phone number appear in Section B of this preamble.

Section 19 of the Act provides that "the Board may make such rules and regulations and such other conditions of the policies as it deems just and expedient in keeping with the fulfillment of the purposes herein set out, . . ." Chapter 401 codifies terms and definitions used by the Fund, establishes procedures that are followed in the administration of the Fund and Program, and establishes static provisions of coverage, such as eligibility criteria, that are not expected to be routinely changed. In prior amendments to Chapter 401, more dynamic provisions of the insurance policy, i.e., coverage limits, premium surcharges and policy durations, which are coverage provisions that are continually reviewed and revised by the Board, were added to Chapter 401. This rulemaking proposes to remove the dynamic provisions of coverage from Chapter 401 and thereby facilitate the Board's efforts to provide policyholders with relevant coverage while safeguarding the solvency of the Fund. It will also eliminate confusion and the potential for conflicts between provisions in Chapter 401 and provisions in the insurance policy.

E. Summary of Proposed Amendments

This rulemaking proposes changes to 25 Pa. Code Chapter 401. There are no companion federal laws or regulations that govern the administration of the Fund and Program.

The specific regulatory changes are discussed as follows:

§ 401.1 Definitions.

The term “mine subsidence” is being revised to reflect the definition in the insurance policy. The definition in the insurance policy more clearly identifies that subsidence must result from the partial or complete cave-in or the collapse of mine workings and not mining operations. This change eliminates the potential for an interpretation of the term “mine subsidence” to be broadened to include losses caused by surface operations associated with underground mining operations and precisely identifies that losses must be caused by the collapse of underground mine voids.

The term “mine workings” is added because it is used to replace the term “mining operations,” the term used in the existing definition of “mine subsidence,” which created the ambiguity related to the compensable source of damage.

§ 401.13 Coverage limits and premiums for insurance.

Coverage limits, premium surcharges and policy durations are being deleted from the regulations and will continue to be established in the insurance policy as is provided in Section 19 of the Act. Such dynamic provisions of the insurance policy need to be continually reviewed and amended by the Board. Therefore, they should be established in the insurance policy and then approved by the Attorney General, a process that is prescribed by law. This process is much more expedient and much less expensive than establishing dynamic provisions of the insurance policy through regulations. Adherence to establishing dynamic provisions of the insurance policy in the policy itself, and not through regulations, also eliminates the potential for conflicting provisions.

The effective date of coverage is also being revised to make it clear that coverage is effective when the Board receives a completed application and receives the premium payment in full. The current language is ambiguous because it does not state the need for a completed application.

F. Benefits, Costs and Compliance

Executive Order 1996-1 requires a cost/benefit analysis of the proposed regulation.

Benefits

This proposed rulemaking will bring the provisions of Chapter 401 into conformance with the provisions contained in the Insuring Agreement, which is the contract between the Fund and the policyholders and is a part of the insurance policy. By eliminating dynamic provisions of the insurance policy from Chapter 401, the Board will be more expedient in making revisions to the insurance policy, as is prescribed in Section 19 of the Act. Most significantly, it will be more agile when making adjustments to coverage limits, which is what the Act intends.

Compliance Costs

There are no costs associated with the proposed rulemaking. However, removing the dynamic provisions of the insurance policy from Chapter 401 will eliminate the need to promulgate regulations when changing such provisions of the insurance policy, and that will result in significant cost savings. Ultimately, those efficiencies will be conveyed to policyholders in the form of lower premium rates.

Compliance Assistance Plan

This proposed rulemaking does not require a compliance assistance plan because it does not propose new or modify existing compliance provisions.

Paperwork Requirements

No additional paperwork will result from this proposed rulemaking.

G. Sunset Review

This regulation will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the regulation effectively fulfills the goals for which it was intended.

H. Regulatory Review

Under Section 5(a) of the Regulatory Review Act (71 P.S. §745.5(a)), the Department submitted a copy of the proposed rulemaking on February 25, 2004, to the Independent Regulatory Review Commission (IRRC), and the Chairpersons of the Senate and House Environmental Resources and Energy Committees. In addition to submitting the proposed amendments, the Department has provided IRRC and the Committees with a copy of a detailed regulatory analysis form prepared by the Department. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed regulations within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria that have not been met. The Act specifies detailed procedures for review by the Department, the General Assembly and the Governor prior to final publication of the regulations.

I. Public Comments

Written Comments - Interested persons are invited to submit comments, suggestions, or objections regarding the proposed regulation to the Coal and Clay Mine Subsidence Insurance Board, P.O. Box 8462, Harrisburg, PA 17105-8462 (express mail: Rachel Carson State Office Building, 5th Floor, 400 Market Street, Harrisburg, PA 17101-2301). Comments submitted by facsimile will not be accepted. Comments, suggestions or objections must be received by the Board by April 5, 2004. Interested persons may also submit a summary of their comments to the Board. The summary may not exceed one page in length and must also be received by April 5, 2004. The one-page summary will be provided to each member of the Board in the agenda packet distributed prior to the meeting at which time the final regulation will be considered.

Electronic Comments - Comments may be submitted electronically to the Board at RegComments@state.pa.us and must also be received by the Board by April 5, 2004. A subject heading of the proposal and a return name and address must be included in each transmission.

Chairman
Coal and Clay Mine Subsidence Insurance Board**

Annex A

TITLE 25. ENVIRONMENTAL PROTECTION

PART III. COAL AND CLAY MINE SUBSIDENCE INSURANCE BOARD

CHAPTER 401. MINE SUBSIDENCE FUND

GENERAL PROVISIONS

§ 401.1 DEFINITIONS

* * * * *

Mine subsidence—[The lateral or vertical subsidence of the earth resulting from past or present underground coal or clay mining operations.] The movement of the ground's surface as a result of the partial or complete cave-in or the collapse of underground coal or clay mine workings.

Mine workings— The roof, floor, or pillars within an underground coal or clay mine.

* * * * *

§ 401.13. Coverage limits and premiums for insurance.

(a) The maximum amount of insurance for a single covered structure [is \$150,000 for a residential structure and \$250,000 for a commercial structure or the current market value of the structure, whichever is

less] , the term or duration of the policy, and the premium rate shall be determined by the Board.

[(b) The premium charged on a policy, for an amount of coverage which is less than 70% of the current market value of the covered structure, shall, by resolution of the Board, be subject to a surcharge based upon the difference between the amount of available insurance purchased and the current market value of the structure.

(c) The premium charged on a policy shall, by resolution of the Board, be subject to additional surcharges of up to 25%, in accordance with the degree of risk, for each of the following conditions:

(1) The location of the covered structure in an area subject to subsidence from active mining.

(2) The location of the covered structure in an area scheduled for underground flushing operations.

(3) The location of the covered structure in an area having a high risk of subsidence damage.

(4) The covered structure having a history of subsidence damage.]

(b) [(d)] An insurance policy [will not be] is effective [until] when a complete application is received by the Board or its agents and the premium associated

with that application [has been] is received by the Board or its agents [and
the maximum term for all insurance policies will be 1 year, unless otherwise
specified by a Board resolution and disclosed to the policyholders].

Mr. Robert E. Nyce, Executive Director
Independent Regulatory Review Commission
14th Floor, Harrisstown #2
333 Market Street
Harrisburg, PA 17120

RE: Proposed Rulemaking: Chapter 401, Mine Subsidence Fund (#7-389)

Dear Mr. Nyce:

Enclosed is a copy of a proposed regulation for review and comment by the Independent Regulatory Review Commission (Commission) pursuant to Section 5(a) of the Regulatory Review Act. The Coal and Clay Mine Subsidence Insurance (MSI) Board approved this proposal on December 18, 2003. The proposal is scheduled for publication as a proposed rulemaking in the *Pennsylvania Bulletin* on March 6, 2004, with a 30-day public comment period.

This proposal will amend 25 *Pennsylvania Code*, Chapter 401 (Mine Subsidence Fund) to clarify terms and provisions and to remove dynamic provisions of the insurance policy, such as coverage limits, premium surcharges and policy durations, that are also contained in the Insuring Agreement of the insurance policy. Removing these specific provisions from regulation facilitates the MSI Board's efforts to provide policyholders with relevant coverage while safeguarding the solvency of the Fund.

The Department will provide the Commission with the assistance required to facilitate a thorough review of the proposed amendments to Chapter 401. Section 5(g) of the Regulatory Review Act provides that the Commission may, within 30 days after the close of the public comment period, convey to the agency any comments, recommendations and objections to the proposed regulation. The Department will consider any comments or suggestions made by the Commission, as well as the Committees and public commentators, prior to final adoption of the regulation.

Please contact me at the number above if you have any questions or would like additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "S. F. Trostle".
