(8) Briefly explain the regulation in clear and nontechnical language.

This regulation implements section 471.1 of the Liquor Code. It explains how training providers are approved to train retail licensees to manage their alcohol service more responsibly. It also defines qualifications for certifying and decertifying instructors. It explains the training of managers and owners and how managers must train their staff in order for a licensee to be "RAMP-Certified." The effect of RAMP certification is explained, as are requirements for signs to be posted in licensed premises.

(9) State the statutory authority for the regulation and any relevant state or federal court decisions.

Pennsylvania Liquor Code, section 207(i) [47 P.S. § 2-207(i)].

## Regulatory Analysis Form

(10) Is the regulation mandated by any federal or state law or court order, or federal regulation? If yes, cite the specific law, case or regulation, and any deadlines for action.

47 P.S. § 4-471.1 requires these regulations but set no deadline for action.

(11) Explain the compelling public interest that justifies the regulation. What is the problem it addresses?

Section 471.1 of the Liquor Code establishes incentives for licensees to get responsible alcohol management training and train their servers. This training will reduce the risks of service of alcohol to minors and visibly intoxicated patrons, for example.

(12) State the public health, safety, environmental or general welfare risks associated with nonregulation.

No environmental risks are associated with nonregulation. Licensees, managers and beverage alcohol servers who are educated in responsible alcohol management with regard to dealing with underage drinking and visibly intoxicated patrons as well as knowledge of the laws of the Commonwealth pertaining to these issues could help reduce the risks associated with underage drinking, intoxication and drunken driving.

(13) Describe who will benefit from the regulation. (Quantify the benefits as completely as possible and approximate the number of people who will benefit.)

The public will benefit from responsible licensee practices that reduce the incidences of service to minors and visibly intoxicated patrons, both of which are linked to impaired driving, property damage and violence. Licensees will also benefit if they take advantage of the program by potentially receiving a mitigation of sanctions by the Administrative Law Judge in the case of an employee who serves a minor or visibly intoxicated person. The benefit for licensees is that this training has the potential of reducing fines for such violations from a range of \$1000-\$5000 to \$50-\$1000.

## **Regulatory Analysis Form**

(14) Describe who will be adversely affected by the regulation. (Quantify the adverse effects as completely as possible and approximate the number of people who will be adversely affected.)

There will be no adverse effects as a result of this regulation.

(15) List the persons, groups or entities that will be required to comply with the regulation. (Approximate the number of people who will be required to comply.)

This is a voluntary program for licensees and their employees. Licenses may be required to attend responsible alcohol management classes conducted by the Board's Bureau of Alcohol Education as a result of adjudication by an Administrative Law Judge. Instructors and training providers must comply. The approximate number cannot be determined at this time.

(16) Describe the communications with and input from the public in the development and drafting of the regulation. List the persons and/or groups who were involved, if applicable.

During the development of this regulation, members of the licensee community were consulted including the Pennsylvania Licensed Beverage Association (Tavern Association) and the Restaurant Association. The Training on Intervention for Servers of Alcohol (TIPS) national program office was consulted regarding suggested regulation for providers of the training. Finally, University of Minnesota Alcohol Epidemiology Department and the Responsible Hospitality Institute, the Texas Alcohol Beverage Commission, the Oregon Liquor Control Board, a national licensee and a public health organization, were consulted on the substance of the regulations and the total program.

(17) Provide a specific estimate of the costs and/or savings to the regulated community associated with compliance, including any legal, accounting or consulting procedures which may be required.

Because the program is voluntary, the regulated community (Pennsylvania retail licensees) would not incur any costs or savings unless they choose to take advantage of the program. If they participate, the server/seller training would typically cost the retail licensee \$25-\$40 per employee, based on a review of training fees across the country. Cost for Manager/Owner training is being borne by the PLCB, therefore, the cost is measured in time spent in training, which is approximately six hours. Savings to the regulated community could be the reduction in administrative sanctions by an Administrative Law Judge in terms of reduced fines, i.e., from \$1000-\$5000 to \$50-\$1000. In cases where an Administrative Law Judge requires a licensee to take responsible alcohol management training as part of an adjudication in a citation proceeding, the owner/manager training cost would be borne by the PLCB, and the licensee would bear all other costs of compliance.

### **Regulatory Analysis Form**

(18) Provide a specific estimate of the costs and/or savings to local governments associated with compliance, including any legal, accounting or consulting procedures which may be required.

The regulation will not have a cost or savings benefit to local governments.

(19) Provide a specific estimate of the costs and/or savings to state government associated with the implementation of the regulation, including any legal, accounting, or consulting procedures which may be required.

The regulation furthers the objectives of the statute promulgated by the General Assembly. The annual cost associated with implementation of the statute and these regulations was estimated to be \$500,000.

## Regulatory Analysis Form

(20) In the table below, provide an estimate of the fiscal savings and costs associated with implementation and compliance for the regulated community, local government, and state government for the current year and five subsequent years.

	Current FY Year	FY +1 Year	FY +2 Year	FY +3 Year	FY +4 Year	FY +5 Year
<b>SAVINGS:</b>	\$	\$	\$	\$	\$	\$
<b>Regulated Community</b>						
<b>Local Government</b>						
<b>State Government</b>	\$500,000	\$500,000	\$500,000	\$500,000	\$500,000	\$500,000
<b>Total Savings</b>						
<b>COSTS:</b>	\$500,000	\$500,000	\$500,000	\$500,000	\$500,000	\$500,000
<b>Regulated Community</b>						
<b>Local Government</b>						
<b>State Government</b>						
<b>Total Costs</b>						
<b>REVENUE LOSSES:</b>						
<b>Regulated Community</b>						
<b>Local Government</b>						
<b>State Government</b>						
<b>Total Revenue Losses</b>						

(20a) Explain how the cost estimates listed above were derived.

The regulations are being promulgated to fulfill a statutory requirement. The regulations establish a new responsible alcohol management program for voluntary participation by retail licensees and compulsory participation in cases where an Administrative Law Judge makes participation in the program a part of his/her adjudication. The program has been operating since 2002, and the estimated costs have been validated at \$500,000 from the state stores fund. Actual costs will be determined by the extent of the participation by licensees. Greater participation could increase costs beyond \$500,000 and less participation would reduce costs below \$500,000. The \$500 license fee for providers and \$100 license fee for instructors will have little or no impact on the cost of the program. At the present time there are three providers and a great number of provider applicants is not anticipated. The Board's Bureau of Alcohol Education estimates between five and ten providers will eventually be licensed. The fee structure falls in line with models in other states and is meant to encourage only serious participants.

### Regulatory Analysis Form

(20b) Provide the past three year expenditure history for programs affected by the regulation.

Program	FY -3	FY -2	FY -1	Current FY
RAMP	N/A	\$500,000	\$500,000	\$500,000

(21) Using the cost-benefit information provided above, explain how the benefits of the regulation outweigh the adverse effects and costs.

Training the holders of liquor licenses, like training the holders of driver's licenses, is an up-front cost that is recovered by improved performance. The benefits are impossible to quantify precisely. Creating incentives to become RAMP-certified makes the cost-burden voluntary except where RAMP training is required by an adjudication of an Administrative Law Judge.

(22) Describe the nonregulatory alternatives considered and the costs associated with those alternatives. Provide the reasons for their dismissal.

Non-regulatory alternatives were not considered since these regulations are mandated by section 471.1 of the Liquor Code.

(23) Describe alternative regulatory schemes considered and the costs associated with those schemes. Provide the reasons for their dismissal.

No alternative regulatory schemes were considered.

### Regulatory Analysis Form

(24) Are there any provisions that are more stringent than federal standards? If yes, identify the specific provisions and the compelling Pennsylvania interest that demands stronger regulation.

Federal regulations do not address responsible alcohol management.

(25) How does this regulation compare with those of other states? Will the regulation put Pennsylvania at a competitive disadvantage with other states?

This regulation is similar to several other states that provide an incentive to complete a responsible alcohol management program, including Oregon, Alabama, and Florida. Some states such as Maryland, Washington and Alaska require mandatory training. The regulation would not put Pennsylvania at a competitive disadvantage.

(26) Will the regulation affect existing or proposed regulations of the promulgating agency or other state agencies? If yes, explain and provide specific citations.

The regulation will not affect existing or proposed regulations of the Liquor Control Board but it will enhance the current training offered by the Board to its licensees.

(27) Will any public hearings or informational meetings be scheduled? Please provide the dates, times, and locations, if available.

No public hearings or informational meetings will be scheduled.

## Regulatory Analysis Form

(28) Will the regulation change existing reporting, record keeping, or other paperwork requirements? Describe the changes and attach copies of forms or reports which will be required as a result of implementation, if available.

The Liquor Control Board will be required to keep records of persons trained in manager/owner and server/seller training for the purpose of certifying licensees as being in compliance with the responsible alcohol management program. The Board will also keep records of providers and instructors certified for the program. Participating retail licensees will be required to keep records of new employee training and server/seller training. There is also an application requirement for those licensees desiring to be certified as being in compliance with the responsible alcohol management program.

(29) Please list any special provisions which have been developed to meet the particular needs of affected groups or persons including, but not limited to, minorities, elderly, small businesses, and farmers.

No special provisions have been developed to meet the particular needs of affected groups or persons including, but not limited to, minorities, the elderly, small businesses, and farmers.

(30) What is the anticipated effective date of the regulation; the date by which compliance with the regulation will be required; and the date by which any required permits, licenses or other approvals must be obtained?

The regulation will become effective upon its publication in the *Pennsylvania Bulletin*.

(31) Provide the schedule for continual review of the regulation.

Review of the regulations is ongoing and any changes to the regulation will be through the rulemaking process.
