Gentlemen,
The Early Local article in yesterday's paper, as written by Janet Callahan disturbs me. The same day we had a speaker in our Senior's only apartment building.

The proposals she outlined and he explained for our futures are not truly good for us. We are being pushed back & other proposals planned.

It was explained that there are so many of us. Too many of us have stroke & no longer comprehend com-

licated programs. The newspapers & TV announcements take time to detail retirement plans for others.

Make the right decision,
Truly,
J. Mylene Register
