Dear Dr. Hummer,

I have been married to a PA for many years and have shared many of the experiences the profession has encountered. Health care has come a long way with the development of many allied medical professionals.

I am asking for your support of the proposed changes to the Pennsylvania Code Title 49, Chapter 18, relating to physician assistants. As a consumer of health care, and having first hand knowledge and experience of the MD/PA team approach to delivering quality health care, these changes will only enhance accessibility and quality of care.

Thank you for your anticipated positive support. I am proud of our country, governmental processes and continued improvement in our medical care that only physicians like yourself can ensure happens.

Sincerely,

Sigrid D. Jones
