Dear Mr. Rugh:

We have reviewed the Department of Transportation's proposed regulation #18-404, entitled "Flashing or Revolving Lights on Emergency and Authorized Vehicles," and did not find any concerns that we feel need to be brought to the attention of the Department for its consideration and review. Although we do not have any comments at this time, we would appreciate it if you would notify us when you submit the final-form version so we can review any potential changes or amendments that may be made to the proposed regulations.

Your cooperation and assistance is appreciated.

Sincerely,

Elam M. Herr
Assistant Executive Director
