Dear Ms. Kaufman,
For 10 years I have been working with neglected, abused dependent youth - half of our kids are in special education. Vocational training has been largely unavailable to them, who need it so badly.

I urge you to consider the good such training can do for the entire life of a ^{person} ~~people~~ with disabilities. We could choose our careers from unlimited possibilities - they often cannot.

Please help by passing Chapter 339, giving our youth access to vocational education programs.

Thank you for your help.
