Dear Environmental Quality Board,

My name is Jennifer Karsten and I am writing to request that you help improve the quality of life for millions of Pennsylvanians by instituting the Pennsylvania Clean Vehicles Program.

This step will help to reduce the pathogenic particles and chemicals that are currently dirtying the oxygen we breathe and the atmosphere upon which we depend. As well, cars under this new system will get better gas mileage and so drivers will pay less at the pump.

In an age where the technology and know-how exists so that we might enjoy fewer public health problems, the only responsible thing to do is to legislate based on those abilities. Please help all of us who live in this state to breathe better – implement the Pennsylvania Clean Vehicles Program as soon as possible.

Sincere thanks,

Jennifer Karsten
