RE: Pennsylvania Clean Vehicles Program

I support the implementation of the PA Clean Vehicles Program and bringing cleaner cars to Pennsylvania. This program would help curb smog and global climate change pollution which poses public health and environmental threats to our citizens. PA has some of the worst air quality in the country and this program is an excellent first step in moving us towards a cleaner and safer place to live.

RE: Pennsylvania Clean Vehicles Program

All Pennsylvanians deserve clean air to breathe and want to do their part to make this possible, by reducing air pollution from their personal vehicles. Protecting human health, and saving money at the pump are top priorities for us. Please support the DEP's proposed changes to the PA Clean Vehicle Program so we can do our part.

Approximately 1800 people/year in PA die prematurely due to lack of clean air. I demand you support the Clean Car Program, not the weak Federal Standards. Thank you!

To Whom It May Concern

The Clean Car Program has met
greatly interested. I am 58 years old
and have lived in Philadelphia's Albany
life. Living near railroads and being
exposed to heavy traffic. Because of
the smog - causing pollution in Phila.
I am suffering from lungs that are
so much I need oxygen for most of the
day. Pennsylvania is a wonderful state
and deserves more action and higher
standards. I hope the Dept of Environmental
Protection will be successful in preventing
illness and premature death. The Clean Car
Program has great promise

Sincerely
Sister Corbata Dunn
