Subject: Proposed Child Care Regulations

**Hi , My name is Mrs. Welles and I do childcare in my home .
There are two proposed regs. that I am not encouraging to be passed.**

1. Special Needs Children

**I and my staff feel as though that all children should not be
observed if there isn't any problems with the child . Staffing is
low in some childcare facilities.**

2. No Restraint

**We need more clarification on this statement . What ages are you talking about? If this gets
passed then manufactures shouldn't be making car seats, seat belts or furniture with straps to
them.**
