Re: Pennsylvania Workers' Compensation Reform

To Whom It May Concern:

Currently, we utilize an Occupation Medical Provider, WorkWell, that provides one toll free access number for scheduling Workers' Compensation appointments, testing and referrals to assist the employee with coordination of their care. By contacting this number the employee has the convenience and option of choosing from the established panel of physicians. This is a process that has been proven effective and convenient for everyone involved.

Thank you,

Susan K. Vetro
Sr. Employee Relations Specialist
