1. Would like to see a CAP on the amount of medical treatment provided to the injured worker, preventing multiple U.C.s. Ex: P.T. 1 yr. max. - Chro tx 6 months max
2. If Insurance companies are allowed to provide additional information to the Reviewer under a P.R.O., why can't the determination be interlocutory?
3. On medical bill submission 90 days is certainly difficult to abide by? Why not make it 120 days - seems more reasonable.
4. Agree that timeframe for the U.C. determination be shortened. Most U.C. go beyond the current timeframe anyway.

PLEASE PLACE QUESTION SHEET ON THE REGISTRATION TABLE ~~ Thank you!

5. There needs to be a change in business practices by medical providers to be aware of and make changes ~~to~~ maintaining records timely. Seems to me that because the internal processes the provider's use, do not work timely, why should ~~that~~ their deficiencies go on without any repercussions. I like the idea of a shortened U.R.O. timeframe.

6. I do not find that Insurance Companies are submitting wrong provided addresses. I find that provider's are just ignoring those U.R. requests because they feel they can just appeal the decision and win. This has been going on too long, it needs to be corrected.
