Subject: Chapter 168 Child Care Regulations

Good Morning,

RE: Regulation #14-505

I have read the proposed Chapter 168 Child Care regulations and feel that the changes that are proposed are very good. It will be good to bring Chapter 3041 and Chapter 168 Child Care regulations in line with each other for unification. I feel that it will also help the population that is being served under Chapter 168 Child Care regulations be held more accountable for providing documentation and updating their information with the necessary agencies.

I am in full support of the proposed regulations.
