INDEPENDENT REGULATORY  
REVIEW COMMISSION

Dear Ms. Bender,  
I read the articles in the paper about them changing the dog laws in order to better protect the animals living in kennels, especially the so-called "puppy mills". I wholeheartedly support and applaud your efforts to make life better for these poor dogs. I have seen and read many newspaper articles and T.V. shows, including "Dateline" about puppy mills. The laws need to ensure these dogs have spacious indoor/outdoor kennels, with warm, dry dog houses. The temperature must also be controlled, so the dogs never get too hot or too cold. It is unfair that kennel

operators can keep these dogs  
in such horrible conditions.

Please strengthen the laws so that  
the kennel owners must treat  
the dogs well, and keep them  
healthy, groomed, and protected  
from inclement weather.

Thank you for your time,  
and I appreciate your efforts  
to improve the lives of these  
poor dogs.

Sincerely,

Hilde H. Wallman
