Dear Sir,

I am writing about a dog Kennel across the field from my house.

Whenever I go outside I hear these dogs bark/cry and it breaks my heart that animals are mistreated. How often does the officers check on these dog factories? I saw the one was checked out in the saturday evening paper article.

My neighbor, Linda Sauder, told me she is glad she does not live as close as me to the dog facility as she could not stand to hear dogs whine and cry. Actually I live a long way across the field from this place. The dogs used to be outside, but by the sound of the cries they are now in a building. This has been going on for at least a year and I reported the situation at least several times to the Humane League of Lancaster County.

The place is not at the owners home, but in a farm lane at a farm owned by his parents. Dad now deceased....From the sound, it sounds like a medium size dog.

The name of the place is the Shady Lane Kennel on Linden Road East Earl, Pa located off Rt. 897 between Blue Ball and Terre Hill,

Thank Youplease at least check this kennel...word loosley use
