RECEIVED

Dear Ms. Bender -

To be quite honest, I was astonished at all of the puppy mills Lancaster County has. Growing up in Mt. Airy, NC - we had a "Doctor Pet" in the mall, and even then at such a young age, I knew something wasn't quite right with that picture. As I grew older, I found out that puppies in that environment come from horrible circumstances, namely "puppy mills". And that is why I find it atrocious that beautiful Lancaster County would ever have a small part in such a horrendous act.

It is bad enough that other places take part in breeding these females over + over again, but Lancaster County, the Amish are already getting a bad name by the way they treat their horses, now this?
