Subject: Regulation changes

I was born and raised in Erie PA.

I no longer live in your state but travel there frequently. I attend bird dog field trials several times a year. I also buy dogs from a couple different kennels in your state.

If regulation ID #2-152 (#2559). passes and kennels can not survive and field trials are not viable in your state, myself and literally thousands of other people will stop coming to your state and spending our money there.

Please consider these changes carefully. All the hunting dog kennels I have visited take very good care of all the dogs at their kennel.

Thanks for your time
Gary Kirkpatrick
