Subject: Proposed Revision in Regulations to Enforce Pennsylvania's Kennel Law

This is concerning the proposed revision in the regulations to enforce Pennsylvania's existing kennel law. Please, please reconsider this! It is obvious that no one involved in these revisions has ever had a kennel, nor been involved in any way in such. These revisions will NOT force out puppy mills but will instead make it IMPOSSIBLE for a legitimate kennel to operate.

I do not have a kennel -- I have only one dog. And I love my dog dearly. But even I consider the regulations -- for example, the required minimum size of a crate -- to be ludicrous and way out of line. Please, please, find some legitimate dog breeders and handlers to be part of the committee to review the proposed revisions. You will get much more balanced laws. Otherwise, you will only drive good, honest people out of business.
