Dear PA Dept of Ag,

I am writing to protest the proposed rulemaking action of 7 PA. CODE CHS. 21, 23, 25 AND 27. This action, while appearing to protect the welfare of dogs, is worded and constructed in such a way that it will hinder the efforts of honest, ethical dog enthusiast and kennels. The most state of the art dog enthusiast and kennel will not be able to comply with the unreasonable impending change in regulation. Pennsylvania may be home to numerous "puppy mill" type operations, but it is also home to more honest, ethical dog lovers, who hunt, train, and exhibit their well taken care of animals. To enact the proposed rules as written will be a mistake and a disservice to Pennsylvania's citizens. Please reconsider the proposal and affect changes that impact the target, not the innocent bystanders. Thank you for reading this message.
