Regulation: ID #2-152(#2559)

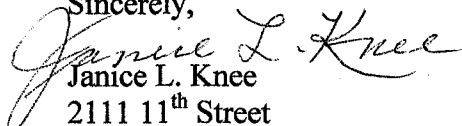

Dear Madam:

I strongly wish to voice my objection to the new proposed dog laws being considered. In an effort to eliminate the "puppy mill industry", these drastic changes will have a crucial and devastating impact on the well meaning and highly respected kennels, breeders, trainers, and competitors who strive to improve every aspect of good breeding and quality care of the dogs in their care.

This measure is a feather in the caps of the "animal rights groups" who white wash their grand standing actions by advocating the well being of the animals, when in fact their true motives are to wipe out all animals.

I implore you to rethink your proposals, and for once, be on the side of the "good people"

Sincerely,

Janice L. Knee
