Dear Mr. Coccodrilli,

Feb. 4, 2007

I am writing to you in regards to the ongoing puppy mills and backyard breeders here in PA. I am a proud owner of three female spayed dogs and wish more people were as responsible as I am but that is not always the case no matter how much I tell people of the benefits of spaying and neutering their animals. I am begging for your help along with our State and PA representatives to help put an end to this. Until then will you help in regulating these breeders and their standards of breeding by doing more checks and making available clean kennels and areas for these animals to exercise and play. Most of the time these poor innocent beings are left in their own feces and waste to sleep and eat much less having clean drinking water. We have to look out for the ones that have no voice or say in the matter and that unfortunately is always the infants, elderly and animals. Will you please help me in putting an end to these ruthless human beings who are only looking to make a quick buck and have no regards for the animals in their care? Please say that you will join me in this fight that has incredibly gotten worse not better over the years.

Sincerely,

Alison Ferro
