

2-5-2007

Dear Mary, 2559

I received a disturbing E-mail the other day about a new Pa Dog Law.

I'm writing this letter to ask for your help. I understand they are trying to pass a law that prohibits dog breeders to raise their dogs in their homes. This is a terrible idea.

I only buy my dogs (toy poodles) if they are in-home raised. They don't pick up bad kennel habits when they are raised inside a home environment. Habits include (barking, pacing, eating their own stool) etc.

This law will not stop puppy mills, it will only hurt the good sensible breeders that truly love & care for their dogs.

Maybe if the penalties were stricter on puppy mills, it would stop them..

Please don't pass a law that will only ~~but~~ hurt the good breeders, their dogs and people like myself who buy them.

Thank you for your time.

Sincerely
Sandy Saxon
