INDEPENDENT REGULATORY  
REVIEW COMMISSION

Dear Ms Bender

I have been a dog-groomer-trainer for  
over thirty years and a volunteer with  
SPCA's and rescue leagues ever since.

The horrors I have seen inflicted upon  
helpless dogs by cruel money-grubbing  
breeders and pet stores is a barbaric  
affront to civilized society.

Dogs bred in these conditions with physical  
and personality disorders are sold to people  
who fall for the cute pet store puppy.  
Down the line the majority of these pups  
end up in shelters because their owners  
can not or will not spend the time

a personal note...

and money needed to rehabilitate them, thus over burdening our cash strapped shelters, and resulting in euthanizing far too many dogs. All this misery for the profit of a few who regard these living creatures as money making machines, when they wear out breeders also dispose of them by just pure neglect.

Having our State known as the "Puppy Mill Capital" is a disgrace.

This must be stopped! how can we ask God's mercy when we demonstrate cruelty to our fellow creatures?

③

We who are involved in dog rescue are working to educate the public against purchasing puppy-mill dogs, however until laws are passed to ensure humane treatment the breeders will keep the mills rolling out their profit in misery.

Please Please pass the amendments to to the Bureau of Dog Law regulations that we have worked so hard for. We don't ask much.

— On Hope.
