

2559

Dear ms Bender

I am writing in Opposition To the proposed changes to the Dog Law Act 225 which was issued on December 16, 2006.

The Proposed regulations call for the temperature of the Kennel floor to be 50°F in warm weather.

I have a Kennel for Small Breeds
If the temperature drops below 60°F
They huddle Together Shivering.

I try keeping it between 70° to 75°
This is when They seem Happier and More Active.

I sincerely hope that this proposal be rescinded and the USDA Standard be adopted in Pennsylvania.

Thank You for Your Time.

Sincerely,

Levi Brubaker
