Dear *Arthur Coccodrilli*

I am writing regarding the new proposed rules and regulation. From my point of view they are not within reasoning. They dont even come close to the **USDA Standards**. If our PA rules will be so far out of the ball park. Goodbye to the **DOGS**. PA can get their dogs imported from **CHINA** as everthing else seems to come from there anyhow! Maybe the state of PA would like me better, if I and our family of 10 children would live off of Food Stamps and Handouts.

However

keeping the rules within reasoning

(similar to the **USDA** standards) would be a great motivator to stick with it.....

Abram Zimmerman

Sincerely, Abram Zimmerman
