To: Bureau of Dog Law Enforcement:

Positive changes have taken place in the area of dog law enforcement changes that are much needed and appreciated by the many citizens who wish to see animals treated with kindness and respect.

As a resident of Lancaster County I am horrified that our townships have allowed some very bad situations to exist. New laws with teeth need to be established and enforced. Denial of kennel licenses for people convicted of animal cruelty is essential as well as providing adequate personnel to conduct

kennel inspections.

One amendment not currently included in the present amendments to Regulations involves tethering. Permanent tethering should not be used as the primary closure.

Pursue and keep up your work on better laws.

Sincerely,
 Margaret Brubaker
