INDEPENDENT REGULATORY
REVIEW COMMISSION

Dear Mary Bender,

I am sending you this letter in regard to the proposed changes to the outdated kennel regulations. I am in favor of all the proposed changes, and would also like to add some to the list. I am a grower in Morgantown Pennsylvania and have witnessed first hand some dogs that are bred from the Amish puppy mills. I would like to see stricter laws put in place regarding breeding such as outlawing in-breeding. In breeding causes many serious health and behavior problems. Puppies should also be fed a proper diet, not oats. Puppies need the appropriate nutrients to grow like they should. Also, good natured, healthy dogs should be bred. Not sickly, and aggressive ones. Thank you for your attention of this matter.

Sincerely,

Kim Burris
