Ms. Bender:

Thank you for helping to pass some changes to Dog Law regulations in Pennsylvania. We are all these dogs have to act as guardians.

I think of a quote, I do not know who to attribute this to but I think it may be something you wish to use in a presentation to inspire and motivate others to allow for changes;

"Think occasionally of the suffering of which we spare ourselves the vision"

Animals provide significant value to our quality of lives. My fingers are crossed that the proposed changes, as set forth by the Humane Society of the US to the Pennsylvania Department of Agriculture, are considered in both head and heart.

P. Morgan

Sincerely yours,

P. Morgan
