Rec'd 2/26/07

I'm just passing along this horrific example of puppy mill fodder that a rescue obtained.

Please think of this little man when you review and make comments about PA's proposed new dog laws.

We must get stricter enforcement on the mills while not imposing undue restrictions on honest and legitimate rescues

As the bumper sticker says "If you are not outraged, you are not paying attention"

-Beth

Permission to CROSS POST!! This is why we rescue from Mills.... GRAPHIC!!!!

Warning....VERY graphic picture attached.

This was posted to my Cairn Rescue list this morning about a dog rescued by another rescue. It's absolutely heartbreaking and I know it'll be especially hard for those of you who have special affection for Maltese. But it's something we need to pass around so ordinary folks understand where we as rescuers are coming from. This is why Col. Potter rescues mill dogs, and especially older mill dogs. This is why we try so hard to make people understand what they're supporting if they purchase from a pet store....either a live dog or cat or food, toys, etc. from a store that sells live dogs and cats.

I'm going to be giving my PA mill kids extra hugs today....lots of extra hugs.

Why I do what I do, why I continue to "spout from my soapbox", and why you should tell EVERY person you know not to buy a puppy from a pet store! This dog came right out of your hometown of

LANCASTER COUNTY - and every person who sees it should be angry that this is allowed to continue

From: MainLineRescue@aol.com

Hey folks, this dog came to us with AKC papers!

We don't know how old he is. We just know that he spent his whole life in a Commercial Breeding facility in Lancaster County, fully licensed by the state of PA. We know that this breeder was inspected three times in the last year and a half.

No violations. How could a warden walk by this dog three times and not issue a vet check? He is suffering from malnutrition, dehydration, ulcers in both eyes (permanent damage), mange, infections in both ears, and what's left of his teeth will need to be pulled if and when he is strong enough.

He had numerous parasites and is being treated for a very contagious organism that's attacking his intestinal tract. The Vet Hospital who is now treating him tell me he is one of the sweetest dogs they have ever met.

Can anyone tell me why this is allowed to continue? Look at his spine. It will cost us thousands of dollars but we'll get him well and find him a home. I hope and pray that things will change soon.
