3/14/07

My wife, family and I Strongly Support Governor Rendell's commitment to help the thousands of dogs affected by Pennsylvania's Puppy Mills. We presently have 4 dogs which are part of our Family.

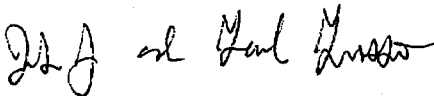

We Strongly Support these changes to give all dogs raised in Pennsylvania better and more healthy living conditions. All the Proposed Changes are Needed to improve the living conditions of these loveable animals. If a business wishes to make a profit selling puppies, that business must be held responsible and accountable for the care of these animals.

Dogs raised in our home state, are not just animals which deserve proper and good care; but, are also part of our Families!!!!

While All Dogs Go to Heaven, we must take responsibility as Pennsylvania citizens to ensure All Dogs are Cared for Properly in the Keystone State.

Please implement these changes, which will improve and save dog's lives immediately.

Sincerely,

John and Gail Grosso
