Dear Sir,

Re. Puppy Mill improvement

Please support the clean up of our puppy mills in this state. We need the new, more humane treatment of dogs in the PA puppy mills. They should have more space, better protection from the elements, time outside of their cages for exercise, and all of the other proposals that are put together!

It is inhumane to keep them confined 24/7 for their lifetimes, or until they are no longer an asset, at which time they are either euthanized or dumped at a shelter.

Please make these breeders conform and treat their dogs better. Really they should be put out of business overall, but that won't happen for a while, so lets take it in small steps.

Thank you for your consideration

Arthur Coccodrilli
