Dear Chairman Coccodrilli:

I implore you to read this email...

The paradigm of capitalism and competition, the way it is currently practiced in this country, does not work! Why? Because it is a scarcity model. It is Darwinian. It promotes the survival of the fittest. Or should I say the survival of who can get their share of the limited pie at any cost. The result is the haves and the have-nots, a rapidly deteriorating environment, vanishing natural resources, attachment to things, war inside and outside our country, and largely a consciousness of apathy, indifference, ambivalence, victimization, helplessness, denial, fear, and pessimism. Is it any wonder there is such a sharp polarization in this country. So who is right and who is wrong? Nobody! Do you want to be right or do you want to be happy, because you can't have both?

1. The Dog Law regulations as applied to kennels should exempt all non-profit animal welfare and rescue organizations, especially non-kennel-based rescues and fosters. These life-saving groups are organized specifically to save and care for the dogs who are given up by their new families because of sickness and genetic disorders caused by bad breeding practices.
2. Representatives from non-profit animal welfare and rescue groups should be included on the Dog Law Advisory Board to better represent the interests of animals in forming these regulations.

Many of us work tirelessly using our own money and personal resources to ensure that our animals on the earth live a quality life...as we humans are evolving to a higher consciousness it would be in your best interest to think and work from your heart...not from your logical thinking mind.

I truly appreciate your attention to this matter.

Respectfully,

Linda Ludwig
