INDEPENDENT REGULATORY

**Subject:** Would appreciate your advising in format I should voice my concern re dog regulations

To Whom It May Concern,

The Pennsylvania "puppy mills" are deplorable, cruel and criminal. How can we as private citizens see that these horrible places are not permitted to mass produce unhealthy dogs purely for profit.

I would like my voice to be heard regarding dog law regulations. I would appreciate appreciate your advising me the best forum in which to convey my opinion.

Looking forward to hearing from you and thank you for your time,
