INDEPENDENT REGULATORY  
REVENUE COMMISSION  
1975

Dear Ms. Bender:

I certainly do support Gov. Rendelli's proposal to strengthen the dog law regulations.

Pennsylvania's record in this regard has been a well-known disgrace and embarrassment.

Personally, I do not own any dogs and probably never will but they are entitled to protection and good care.

\* Perhaps the regulations should be moderated for smaller kennels and breeders; the legislators should use "common sense".

Also, people should seek out Rescue Groups from which to purchase dogs, never pet stores like Pets Plus.

Sincerely,

Ellen Eckhart
