RECEIVED

MAR 20 REC'D

Dear Ms. Bender:

INDEPENDENT REGULATORY
REVIEW COMMISSION

I am writing this letter in protest of the newly proposed dog regulations. As a hunting dog owner and breeder I am against such strict guidelines and if approved, it would be nothing more than a victory for "animal rights groups." Our state is rich in hunting tradition and these regulations will have a direct effect on those traditions.

If those who are writing these proposals want to target "puppy mills," then they personally need to visit these breeders and see what the problems are. Next they would need to visit a kennel like my own. It would become clear just how devastating an effect these proposals would have on small, well-operated kennel. Please feel free to visit my kennel website www.drahthaar.us

Don't give in to the pressure from these anti-hunters!

Thank you,

Alfred S. Turjan
