Subject: Act 58

Please reconsider the fees associated with Act 58. Do you realize it will be an additional expense for Pennsylvania Nurses of \$1/125.00 per year. Are you trying to drive nurses out of PA? Why would new RN's want to stay in PA. I searched the California web site and could not find fees that exorbitant. What are you going to do with the more than \$1 million dollars you will obtain from my hospital co-workers? When you consider some RN's only work on a casual basis, how do you expect them to maintain their licence? Thank you very much for adding more problems to nursing.

Georgia Gampe RN
