Subject: RE: ADVANCE NOTICE OF FINAL RULEMAKING

Dear John and/or Joe-

I was forwarded the e-mail below and would like to seek clarification one point. When the text refers to "climbing walls", is it referring to portable climbing walls and/or walls erected within an amusement park setting OR all walls? I am trying to determine if rock climbing gyms are considered under these provisions. In the explanations and definitions given, I would read it as they are not considered as such. Is this accurate?

Thank you for your assistance.
