To Whom It May Concern:

I understand the demands that NCLB has placed on making individuals who work with students either highly qualified or to meet specific standards. What I don't understand is why the State Board does not recognize the amount of training and in-service para-professional staff receive now on a yearly basis. This should be considered as meeting the requirements set within the latest draft of Chapter 14.

Thank you for your consideration.

Sincerely,  
Jacqueline R Crouse
