Dear Mr. Buckherz,

Please clarify the word 'instructional' before paraprofessional in the Personnel section of the document. How many different categories of paraprofessionals will we have under Chapter 14? Do personal care aides need to meet the qualifications placed in Chapter 14? The current requirements involve first aid but not higher education on the part of the aid. Also please do not undervalue work experience. Would you please consider giving credit to aides for satisfactory performance over a number of years? Please do.

Sincerely,  
Theresa Semple
