Dear Mr. Buckheit,

I would like to speak on Chapter 14
We need to maintain current times of
60 School days of evaluations. I request
that you recognize the expertise of current
instructional paraprofessionals and consider
this meeting the requirements you have
suggested in the draft under Personnel
section. The two year post secondary
requirement for employment as a
paraprofessional is premature.

Our districts and communities do not
have the current capacity to fill the
vacancies

Thank You
Deane Crocco
