INDEPENDENT REGULATORY
REVIEW COMMISSION

To Pa state Board,

I am concerned about the future of Paraprofessionals
for Special Education. Paraprofessionals attend a great
training and years of experience should be considered
at meeting the standards suggested in Chapter 14. Many
have spent years working with students and have
amassed skills they are proud of. I also recommend
the elimination of the 2 years of post secondary
education.

a concerned citizen,
Michael J. Fuge
